

Vowel Diphthongs Workshop #1

Name _____

Diphthongs are two or three vowels together in the same syllable that each make individual sounds.

Vowel Digraphs are two or three vowels in the same syllable that together make only one sound. For the following words, write **D** if the word contains a diphthong and write **VD** if the word contains a vowel digraph in the space provided. Use the sound-spellings chart below for help.
