How to Set up the Academic Literacy Centers

To set up and ensure successful program implementation, teachers need to accomplish seven tasks. The teacher's decision regarding one task will impact a decision on another.

1. Select the other literacy centers which you plan to implement.

Generally, teachers who have no **experience** with literacy centers or cooperative groups should start *small* and layer in additional groups when classroom management and routines are established. Often, excited and/or impulsive teachers jump in with eight-center rotations and struggle with the classroom management of such multi-tasking. Experienced teachers should know their *comfort zones* with respect to the number of literacy centers.

With respect to **time limitations**, instructional decisions are always reductive. In choosing to *do* literacy centers, you are choosing *not to do* another instructional approach or learning activity. The question will be how much time you are able to devote to literacy centers. Each Academic Literacy Center has been field-tested in grades 4–8 classrooms and takes about 20 minutes to complete. Available time will influence your decision about how many groups to form for literacy center rotations.

The **needs of your students** will impact *which* and *how* many literacy centers you choose to use. Generally, the focus of content literacy centers is split between grade-level/accelerated centers and remedial centers. Grade-level, Standards-based literacy centers usually afford the teacher with meaningful open-ended opportunities for acceleration. Effective remedial literacy centers are diagnostically-based and are composed with fluid ability groups.

Following are the grade-level and remedial literacy centers offered for grades 4–8 students by [Pennington Publishing](#):

Academic Literacy Centers

Reading Literacy Center #1: Reading Fluency and Comprehension

- 43 expository reading fluencies, leveled at 3rd, 5th, and 7th grades, with vocabulary, word counts, and timing sheets with YouTube modeled readings at 3 different speeds and fluency timing sheets
- 48 corresponding comprehension worksheets with vocabulary in context and higher level comprehension questions

Writing Literacy Center #2: Sentence Revisions and Literary Response

- 56 sentence revisions lessons, which include revising sentence structure, grammar application, and writing style
- 56 literary response activities, which include literary quotation mentor texts and writer response tasks with different rhetorical stance (voice, audience, purpose, and form)

Language Conventions Literacy Center #3: Grammar and Mechanics

- 56 grammar and mechanics lessons including online links for both grammar and mechanics content and/or skills (Internet access preferred with tablets, phones, or desktop access, but **not** necessary)
- **Biweekly unit tests** with definition, identification, and writing application

Vocabulary Literacy Center #4: Vocabulary Worksheets and Study Cards

- 56 vocabulary worksheets including multiple meaning words and context clues; Greek and Latin word parts; dictionary and thesaurus skills; figures of speech; word relationships; semantic connotations; and four square academic language words
- Vocabulary study guides and **biweekly unit tests** with definition and short answer

Spelling and Syllabication Literacy Center #5: Spelling and Syllabication Worksheets

- 28 spelling sorts based upon conventional spelling rules
- 28 syllable worksheets

Study Skills Literacy Center #6: Self-assessment, Study Skills Lessons, and Reflection

- 56 self-assessment, study skills lessons, and reflection
- Motivation, goal-setting, homework time management, organization, listening and note-taking, test preparation, memorization, research skills, reading, writing, and grammar strategies

Remedial Literacy Centers

Remedial Spelling Literacy Center

- Diagnostic spelling assessment and recording matrix
- 102 corresponding spelling pattern worksheets

Remedial Grammar and Mechanics Literacy Center

- Diagnostic grammar and usage assessment
- Diagnostic mechanics assessment
- Recording matrix
- 77 corresponding grammar and mechanics worksheets

Phonics Literacy Center

- Diagnostic vowel sounds phonics assessment
- Diagnostic consonant sounds phonics assessment
- Recording matrix
- Short vowel sounds, silent final e, consonant digraphs, consonant blends, long vowels, diphthongs, and r and l-controlled vowels workshops, each with formative assessments
- Phonics game cards

Sam and Friends Guided Reading Phonics Books Literacy Center

- Screening and placement assessments
- 54 guided reading phonics books, designed for older remedial readers with teenage characters and plots
- Each Sam and Friends book has new sight words, five embedded text-dependent questions, and a 30-second word fluency review of past sound-spellings and sight words, and a custom 200-word running records assessment
 - Books 1–8: Short vowels and consonants
 - Books 9–16: Consonant blends and digraphs (part 1)
 - Books 17–24: Consonant blends and digraphs (part 2)
 - Books 25–34: Long vowels and silent final e
 - Books 35–44: *r*-controlled vowels and diphthongs
 - Books 45–54: Syllable juncture and derivational influences
- All illustrated by master cartoonist, David Rickert

2. Form the instructional groups.

Both **common sense** and the literacy stations you choose to use will impact your decisions.

Let's be realistic. One factor which determines effective group placement is behavior. No amount of training in group norms and leadership roles will allow Robert and Juan to be in the same group. Additionally, your non-English-speaking newcomer should participate in *some, but not all* of the literacy centers. The same will be the case for your three special education students and your two gifted and talented students who are pulled from your class on a regular basis. Additionally, a sizable amount of research suggests the optimal size of small groups to be from 3–6 students. The configurations and rotations used in this program work with those numbers.

The second factor used to determine group composition will be determined by your choice of literacy centers. Grade-level, Standards-based centers will permit heterogeneous group compositions, while one or more remedial groups will necessitate homogeneous groupings for *some* centers. The ideal rotations will allow some heterogeneous and some homogeneous groupings.

3. Decide upon your role as the teacher.

Depending upon the composition of your groups, you may choose to serve as a **supervisor**, **mini-conferencer**, or a specific literacy center **facilitator**. Of course, you can always change your mind later.

For teachers trying out literacy centers for the first time, I recommend the **supervisor** role in which the teacher does not lead a group, such as guided reading. As supervisor, the teacher is available to answer questions, walk the room, and help students fulfill their leadership roles. For example, “Who is the People Manager in this group? Sophie? Sophie, would you like me to help you maintain quiet voices in your group?”

As **mini-conferencer**, the teacher may pull entire groups or individual students. The teacher may choose to visit a literacy center to teach a lesson or ask students from the center to come up to the teacher’s desk for an individual conference.

The teacher may also serve as a literacy center **facilitator**, in which case the teacher presents the full 20-minute literacy center lesson. Or the teacher could meet for 10 minutes with each group during the 20 minutes allotted for one rotation. Guided reading and remedial literacy centers work well with the teacher serving in this role. The literacy center rotations provide options for guided reading once, twice, or four times per week for either 10 or 20 minutes per group.

4. Select the Literacy Centers Rotation.

Ten classroom rotations are provided as building blocks for your literacy centers. Of course, teachers will adapt and design rotations which work for them. Your decisions regarding tasks #s 1, 2, and 3 will determine your rotation options. The Center Rotations are found in the Addendum and range from **simple** 4 group, 2 rotations (40 minutes Total) per Day, 4 Days per Week, 4 Literacy Centers to more **complex** 8 group, 5 rotations (100 minutes Total) per Day, 4 Days per Week, 10 Literacy Centers.

5. Print and post resources, gather materials, and arrange your classroom.

Print, laminate, and post the Literacy Center Group Norms, the Leadership Roles, the Literacy Center Signs, and the Center Rotations (see Addendum). Many teachers like to use ceiling hangers for the Literacy Center Signs and either pocket charts or magnetic strips to post the Center Rotations. Also print and laminate the Task Cards and Answer Sheets for each Academic Literacy Center.

Print and collate the lessons. Use colored paper if you can. Provide scissors, colored pencils, and erasers for the literacy centers. Decide whether to staple for individual student packets or to distribute to literacy centers (in trays, folders, zip-lock bags, or bins). Either works fine.

Decide on a seating configuration for your desks or tables. Students need to be facing each other to collaborate. Separate the literacy centers as much as possible.

6. Establish and post your groups, teach the group norms, assign group leadership roles, and practice rotations and transitions.

Post the assigned groups and tell students that you may change these at any time.

Take time to specifically teach the posted Literacy Center Group Norms. Reinforce these norms often and pre-establish both rewards and consequences to ensure that your literacy centers will succeed. Teachers abandon literacy centers for two reasons: 1. Too much prep, correction, and mess. 2. Behavioral and class management issues. The Academic Literacy Centers program will take care of the first, but teachers need to take care of the second. The group norms are essential.

Tell students that they will help monitor the group norms through assigned leadership roles. Inform students that you will select the roles and change these at any time. Many teachers change these roles on a weekly or biweekly basis. Take time to specifically teach the posted Leadership Roles.

Refer to the posted Center Rotations and rehearse setting up the literacy centers, transitioning from center to center (quickly and quietly), tear-down, and clean-up. Students love to be timed and positive reinforcements work well to teach time management. Make sure that the clock is visible so the Task Manager can monitor the time for each center lesson or activity.

7. Model and practice the instructional procedures for each center.

Much care and classroom-testing has gone into planning Academic Literacy Center lessons that will foster independent, collaborative learning. After all, if you must teach each literacy center, this instructional model will quickly unravel. To the former end, each Academic Literacy Center has the same, predictable instructional procedures for its lessons. Task cards are provided for each center to remind students of the directions and group leadership tasks.

Teach the directions and model the procedures for the first lesson or activity (to the whole class) for each of the Academic Literacy Centers before permitting students to do them on their own. Students should complete all the written work and discussion with these introductory lessons.

Option: For the second lesson or activity for each literacy center, divide students into their groups and have them complete the *same* literacy center while you supervise. For example, each of the groups would complete the reading fluency and comprehension tasks of the Reading Literacy Center. You would answer questions, refer students to the literacy center task cards for directions, and debrief with the whole class before moving onto the second literacy center.

FAQs

The Academic Literacy Centers have been designed to minimize or eliminate preparation, correction, behavioral problems, and clean-up time and to maximize flexible, on-task learning.

✓ Can I set up, tear down, and move these centers quickly? Yes. Set up and tear down only take a few minutes. Perfect if you share a classroom or move to another classroom.

✓ What supplies do I need to provide? Just the paper copies. Use colored paper if you can. Also, scissors will be necessary for the vocabulary study cards. Plus, two different color pencils and erasers for the reading fluency cold and hot timings and a timer.

✓ Are there literacy center signs? Yes, they are provided in both color and black and white and are formatted for both pocket charts and center display. See Addendum.

✓ Do the print materials stay in the center or do students have weekly packets? Your choice. Either option works well.

✓ Are there directions for each lesson? Yes. There are longer teacher directions and shorter student directions on the literacy center task cards (provided in both color and black and white).

✓ Do the literacy centers use the same instructional procedures for each lesson? Yes. Read the directions and model the first activity or lesson for each literacy center once and your students will be able to work independently thereafter with the task card reminders for each center.

✓ Are there answers for all the literacy center lessons? Yes, except for open-ended thinking, free-response questions.

✓ How much correction is there? Plenty, but your students will do all the correcting. Students learn from their own mistakes.

✓ Are there unit tests? Yes, biweekly tests are provided for the language conventions and vocabulary literacy centers.

✓ Can I teach some of the lessons whole class or assign them as homework? Certainly, although your students will lose the benefits of cooperative learning.

✓ What exactly is Common Core State Standard grade-level specific and what is not? The sentence revisions (Writing Center), vocabulary worksheets (Vocabulary Center), and spelling sorts (Spelling Sorts and Syllabication Center) each have separate grades 4, 5, 6, 7, and 8 lessons. Other lessons cover the breadth of the grades 4–8 Standards. The reading fluencies and comprehension worksheets are leveled at third, fifth, and seventh grade levels. CCSS Standards alignment document are provided in the relevant appendices.

✓ Can I add (or substitute) other centers to the six Academic Learning Centers, such as guided reading, independent reading, computers, writers workshop, or? Yes, and I provide four other remedial centers: phonics, spelling, grammar and mechanics, and guided reading with decodable take-home books. **Check out the ten rotation options in the Appendix.**

Reading Fluency and Reading Comprehension Introduction

This Reading Literacy Center helps your students practice both **reading fluency and reading comprehension**, using informational articles about common and uncommon animals. Each article has between 350–450 words and provides a physical description of the animal, its habitat, what it eats, its family life, interesting behaviors, and the status of its world population.

The articles are leveled in a pyramid design: the first two paragraphs are at an adjusted third-grade (*Fleish-Kincaid*) level (after deleting a few key multi-syllabic words such as *carnivores* or long animal names such as *armadillos*); the next two paragraphs are at the fifth-grade level; and the last two are at the seventh-grade level. The reader begins practice at an easier level to build confidence and then moves to more difficult academic language and sentence length. The same text is used for both the reading fluency and reading comprehension articles.

The reading fluency articles include difficult pronunciations in boldface in the upper right corner. Word counts are listed in the left margin for fluency timings. Timing charts are provided to help students track their *cold* (unpracticed) and *hot* (after choral readings) readings.

Additionally, if tablets, phones, or computers are available, students may access and practice reading along with the YouTube modeled readings for each article. Each of the reading fluency articles has been recorded at three different reading speeds ((Level A at 95-115 words per minute; Level B at 115-135 words per minute; and Level C at 135-155 words per minute) for optimal modeled reading fluency practice at your students' individual fluency challenge levels. Visit <http://bit.ly/1HaRC3h> to access the YouTube modeled reading videos.

Unsure about what level of modeled reading to assign to your individual students? Download and print [The Pets Fluency Assessment](#) to determine students' fluency challenge levels.

Although the program instructions are quite clear, teachers will appreciate viewing the “Pets” Fluency Assessment directions as well as the fluency and comprehension overview in the following YouTube training video: <http://bit.ly/1msN59b>.

The reading comprehension articles include five comprehension questions—one question for each of the five SCRIP Comprehension Strategies. The SCRIP acronym stands for Summarize, Connect, Re-think, Interpret, and Predict. The questions are placed in the right-hand margin to help students read *interactively* with the text. Additionally, three key vocabulary words are boldfaced within the article. Answers are provided following the comprehension worksheets.

Materials Preparation

Print the reading fluency and comprehension articles for each student. Provide a timer and a box of *cold* and *hot* color pencils and erasers. Many teachers use blue pencils to record the cold fluency timings and red pencils for the hot fluency timings. Of course, pencils and pens will serve the same purpose. Print the task card directions and comprehension answer sheets. Laminate in order to re-use.

Pre-Teaching to the Whole Class

Reading Fluency: Teachers should read the reading fluency directions and practice the cold and hot timings with the first article. Error analysis is provided at the bottom of each article to enable the teacher to periodically check individual students for word accuracy. Encourage students to read quickly, but to focus attention on punctuation, accurate pronunciation, and expression. If using the YouTube modeled readings, play the first reading fluency article, “The Ape,” Level B and have students read along to practice quiet voices (not whispering). Note: The author includes additional fluency practice in the comprehensive [Teaching Reading Strategies](#) program.

Reading Comprehension: Before beginning the comprehension worksheets, teachers should introduce the SCRIP Comprehension Strategies. Click [HERE](#) for five connected articles to introduce these strategies with the five fairy tales. Each of the five fairy tales helps your students learn one of the SCRIP Comprehension Strategies. All five of these comprehension strategy questions appear on each of the Reading Comprehension Worksheets. Print the five fairy tales (following this section) and teach one fairy tale to the whole-class, one per day before beginning the Reading Academic Literacy Center.

Also, use a think-aloud to introduce the **SALE** Context Clues Strategies (Click [HERE](#) for help). Each of fluency articles introduces key vocabulary words and the comprehension worksheets provide vocabulary in context.

Task Card Directions for Reading Fluency and Comprehension

1. The Clarifier picks up the task card, and the Task Manager passes out the *cold* and *hot* color pencils and erasers. The Task Manager notes the ending time for this literacy center. The People Manager makes sure that everyone in the group has the reading fluency article and reminds students to write their names on the page.
2. The Clarifier points to the **boldfaced** pronunciation words in the upper right corner of the article and says, “Ready, begin.” The group reads the words together (chorally) out loud and repeats any words which are mispronounced. The Clarifier asks the teacher if unsure of the pronunciation.
3. The Task Manager sets the timer for two minutes. The Reader reads the article title and then says, “Ready, begin.” The Task Manager starts the timer and students read the article in quiet voices (slightly louder than a whisper) at their own individual paces until the timer rings. When the timer rings, the students place a finger on their ending word.
4. Students look to the left column of their finger for the word count. Students add on the number of words on the line up to their finger to determine their cold or hot timings. The People Manager tells the students to record their cold timings quickly and neatly on the Fluency Timings Chart.
5. **Modeled Reading Option:** Students practice reading with model reader at the fluency level assigned by their teacher in a quiet voice (not a whisper). Students continue to read and re-read the article until the Task Manager says, “Stop” (when 10 minutes have passed).
6. The Reader reads the article title and then the first SCRIP question. Next, the Reader begins reading the article in a quiet voice until someone in the group says, “Stop,” because the the first SCRIP question has been answered or the related information has been read.
7. Students discuss how to word the answer and write the answer in the spaces provided below the SCRIP question. The Clarifier turns over the task card and reads the suggested answer. Students revise their answers if necessary.
8. When the Reader finishes a sentence in which a **boldfaced** vocabulary word appears, the Reader stops and students discuss the meaning of the word from surrounding **SALE** (Synonym, Antonym, Logic, Example) context clues. Students discuss how to word each definition and write the vocabulary words and their definitions in the article margins.
9. Continue these steps until the article is read, the SCRIP questions are answered, and the vocabulary words are defined. The Task Manager gets the answers from the teacher and students self-correct and revise their answers.
10. Follow the same directions (#3) for the hot timing and use the hot pencil to record the score on top of cold timing. If the student reads fewer words on this hot timing than on the cold timing, simply draw a line across the bar at the correct spot.

“The Ape” Reading Fluency #1

<p>8 16 25 32 41 50 52 59 73 83 96 111 121 133 148 164 179 189 200 213 230 242 255 264 282 298 316 333 346 362 381 399 413 422</p>	<p>The ape is a very interesting animal. One type of ape is the orangutan. Male orangutans can weigh as much as two normal size humans. Females weigh about half as much. Orangutans have long, strong arms and their hands and feet are shaped like hooks. They are shaggy and have red hair.</p> <p>Orangutans used to live all over Southeast Asia. Now they only live in a few rain forests on the islands of Sumatra and Borneo. Orangutans swing from tall trees to move around. It is warm where these animals live, but not too warm. There is a lot of rain there, so trees and plants grow very tall and big.</p> <p>Orangutans are <i>omnivores</i>, since they eat some birds and small mammals. However, they mostly eat plants, like fruit and leaves, instead of meat. Their diet consists of mostly fruit. The fruits they tend to prefer have a lot of sugar in them. One fruit that they like in particular are figs. Figs come from trees and they are easy for orangutans to pick and eat. Orangutans also eat lots of young leaves from many trees in their habitat.</p> <p>Unlike many other animals, orangutans are single adults, so they have no family structure. Mother orangutans raise their children one at a time. The baby rides on its mother’s back for three years at the start of its life. There, it learns how to pick food and protect itself from danger. Female orangutans usually have one baby every six years. Older male orangutans may fight each other for the attention of the available female orangutans.</p> <p>The territory of an adult orangutan is not clearly established, as is the case with many animals. Often, orangutan territories will overlap. However, this does not mean that orangutans are social animals. They limit their social interaction to feeding, mating, and calling each other. Only rarely will orangutans get in fights with each other over food or territory. In these fights, the apes will demonstrate their strength by destroying branches, charging at each other, and biting each other until one gives up.</p> <p>Due to deforestation of the rain forest (cutting down trees for grazing or farmland), orangutans are becoming more and more endangered with each day. Palm oil farmers have cut down much of the forest on Sumatra and Borneo. Some people even capture orangutans to use them as pets in their homes. Orangutans are already on international endangered species lists, and their habitat has been increasingly threatened by humans, mainly through the deforestation of the rain forest.</p>	<p>orangutan Sumatra Borneo omnivore endangered species</p>

This bird of prey has a large yellow beak shaped like a hook and a pure white head. Its body is brown with a white tail. Female bald eagles are much bigger than males.</p> <p>Bald eagles live all over North and South America. They make their nests near rivers, ponds, and lakes. There they can find many fish. Bald eagles build the biggest nests of any bird in America. Mostly, the birds stay away from people. Some birds move their nests frequently.</p> <p>Bald eagles eat whatever they can find. But, mostly they eat fish. Some of their favorite meals are trout and salmon. To catch fish, bald eagles swoop down over the water and grab the fish with their feet, called talons. If the fish is too heavy for the eagle to carry, it might have to swim in the water. Many eagles aren't able to swim very well. Sometimes, bald eagles will steal their food from other birds that are smaller.</p> <p>At about five years old, bald eagles find mates. They pick partners as their mates for life. Sometimes, if the pair cannot have a baby, they will find new partners. Babies are hatched from eggs in their nests, which are made out of twigs and branches. Nests are usually in trees near open water. Mother and father eagles will take turns watching the eggs while the mate finds food or adds on to the nest.</p> <p>The bald eagle is also an important symbol of the United States of America. It is known as the national bird of the United States. In 1782, the Continental Congress named the bald eagle as the national bird. Ben Franklin once wrote that he thought that it was a bad choice. He said the bald eagle was too cowardly to symbolize the nation. Instead, he suggested the turkey. Today, the bald eagle appears on official seals of the United States on the backs of several coins. It was on the back of the quarter until 1999, with its head turned towards an olive branch.</p> <p>The bald eagle used to be a common sight in the United States. But, over the nation's history, this eagle's population has slowly decreased. This decrease is due to hunting and the use of pest spray by farmers. Many farmers used to spray DDT to reduce pests on their crops. This spray, when breathed by eagles, made them unable to have babies. Fortunately, the bald eagle population has begun to increase since DDT was banned as a pest spray. The bald eagle was officially removed from the list of endangered species in 1995.</p>	<p>prey salmon Continental official</p>

“The Ibex” Reading Fluency #3

<p>9 An ibex is a wild goat. Ibexes have big, 18 long horns that turn behind their heads. The horns 28 have spiky bumps on them. Their fur is very short, 38 and not shaggy like a dog’s fur. As the weather 47 warms, the fur gets darker. Ibexes are about five 56 feet long and three feet high. They weigh about 63 as much as two people put together. 70 Ibexes live in the mountains. They are 78 found in Europe, Asia, and Africa. Their homes 88 are made in the rocks. Ibexes have very hard feet, 102 so they can walk on rocks all day long. Some even live in snowy 114 mountains, where it’s very cold. Mostly, they like to stay in the 120 shade of trees in the daytime. 134 Ibexes are <i>herbivores</i>, so they eat only plants. In the daytime, when it is 148 warm, they search for food. They usually eat leaves from trees that grow in 162 their natural habitat. Many ibexes also search for fruit to eat. However, fruit is 175 less common in some of their grazing areas. Although ibexes are plant eaters, 188 this does not mean that they are less dangerous to humans. Ibexes dislike being 201 near humans and will sometimes attack. The main animal that hunts for ibexes 205 is the leopard. 219 Ibexes live in two different groups. Groups are made up of about ten to 232 twenty ibexes. Males make up one group, and females and babies make up the 247 other. Males fight each other to establish power in their groups and to win 260 females as their mates. The most powerful male ibexes avoid each other and do not fight. This helps them avoid serious injury. 269 Ibexes are known for their charging abilities when they attack predators. Ibexes put down their heads 284 and butt into their predators. Although younger ibexes often fight, they avoid hurting each other. In fact, much 302 of their fighting involves circling and pretend charges, which are called <i>mock</i> charges. 316 Ibexes used to be the subjects of many game hunts. The handsome male heads were prized by hunters, 333 and many of these heads were stuffed by <i>taxidermists</i> and then displayed in the homes of big game hunters. 352 They were also hunted because of the medicinal properties of various parts of their bodies. However, the 368 advancement of modern medicine has stopped most of the hunting of ibexes for their medicinal value. About 385 ten thousand ibexes still live today in the world. 396</p>	<p>Europe herbivores predators taxidermists medicinal</p>

“The Okapi” Reading Fluency #4

<p>9 The okapi looks like a mix of zebra and 16 giraffe. These animals have dark backs. On 24 their legs, they have white stripes. These stripes 32 make them look like zebras. Their bodies look 41 like small giraffes. But, they do not have very 50 long necks. Their ears are big and pointy, and 58 their tongues are long, too. Okapi have short 64 horns that are covered by skin.</p> <p>75 These animals like to live in large areas away from towns. 88 They can be found only in the middle of Africa in the Democratic 99 Republic of the Congo. Most okapi live in the mountains and forests. 109 They leave scents to mark their territories. Males protect their land, 122 but they allow females to walk through it to find food.</p> <p>134 Okapi are strange eaters. They are <i>herbivores</i>, so they eat tree leaves, 148 grass, and fungi. But, they also have been known to eat charcoal from burnt 161 trees! Also, they commonly eat red clay from the ground near streams or 174 rivers. Along with plants, charcoal, and clay, they eat fruit and berries. Okapi 188 spend most of their day eating and searching for food. When they find food, 203 they chew it, spit it out, and chew it again. This helps their weak digestive 204 system.</p> <p>219 Female okapi give birth to a single baby, called a calf. Babies are fed by 232 their mothers and they grow quickly. Only thirty minutes after they are born, 245 okapi can stand up and walk around. Mothers leave their babies during the day. 260 They return at night to feed them. In zoos, okapi live for about thirty years. 272 But, no one knows how long they live in the wild.</p> <p>287 Although they generally live alone, Okapi have ways of communicating with each other. They make 306 different sounds that zoologists are able to identify. One sound, called a <i>chuff</i>, is made when one okapi meets 324 another. The <i>bleat</i> is used when an okapi calf is separated from its mother and put into danger.</p> <p>341 The forests of the Democratic Republic of the Congo are threatened by people eager for their rich 358 natural resources. As a result, okapi are losing their territory. Okapi are not only threatened by loggers, miners, 376 and farmers, but they are also threatened by illegal hunters, called <i>poachers</i>, who hunt them for their valuable 389 skins. The okapi population is currently classified as “near threatened” by extinction.</p>	<p>Democratic digestive communicating zoologists extinction</p>

“The Mule” Reading Fluency #5

<p>7 Mules are babies, born from donkey and 15 horse parents. They have short, thick heads. They 24 have long pointy ears. Mules have a short mane, 33 like most horses. They come in all shapes and 43 sizes. Some mules can grow to weigh as much as 50 six humans! Mules have small, strong hooves. 60 Most of the mules in the world are in China. 69 In that country, mules are used for riding. Mules 81 are also used for pulling carts. Many other mules are found in 91 Mexico, South America, and North Africa. Mules live mostly on 104 farms with people. There are only a few wild mules and many of 115 these animals live in California. They were lost during the California 127 Gold Rush of the 1850s and have survived in foothill canyons ever 128 since. 141 The mule’s owner can purchase food for mules at any farm store. Mules 154 have the same diets as horses and donkeys. However, they need less protein 167 than horses. Their favorite snacks are hay or other dried grasses. Mules need 182 lots of fresh, clean water. But, if they drink too much, they can have serious 193 problems. Mule owners need to control their food and drink levels. 204 Since mules come from two different parent animals, they are called 216 hybrids. Most mules are sterile. This means that they cannot produce any 230 babies. But, some mules have been able to have babies. Mule babies are called 247 <i>foals</i>. If a female mule and a male horse are the parents, then the foal is mostly 257 horse-like. A male donkey produces a mostly donkey-like foal. 273 Mules are intelligent animals. They can endure hardship and severe conditions, which is why they are 289 commonly used for transportation and farm work. Mules are stubborn if treated harshly. Horses will forgive 306 their owners for treating them poorly, but mules generally will not. Mules are very proud animals. When 325 treated well by their owners, mules are usually very friendly. They will bond and work well with people who 328 treat them decently. 345 The number of mules in the world is increasing. Endangered animal agencies have rated the mule of 363 “no concern” for extinction. In China, where there is the densest population, mules are still bred daily. The 371 mule population is even increasing in industrialized nations.</p>	<p>hybrids sterile intelligent transportation industrialized</p>

They come in a variety of colors: brown, white, black, and red. Roosters have red combs on the top of their heads. They have yellow beaks. They have black feathers on their tails. Below their eyes, roosters have a white spot. Their thin legs and feet are gray or black.</p> <p>Most roosters live on farms. In fact, chickens live in all areas of the world. But, most of them live in China and the United States. Most chicken owners keep their chickens in <i>coops</i>. A coop is a walled or screened shack designed for chickens. Coops keep roosters warm during the winter and cool in the summer time. Female chickens, called <i>hens</i>, even have built-in nesting spots in many coops.</p> <p>Most roosters are fed by their owners. Their diet is made up of insects, worms, slugs, and snails. However, they also eat plants, fruit, seeds, acorns, and other foods. Roosters can find their own food if the owner wishes. But, they must have a lot of room to search for their food.</p> <p>Farmers chiefly keep chickens for their eggs; however, some chicken farmers raise hens and roosters for their meat. The job of the rooster is to protect the nest and the hens. Usually, there is one rooster who is in charge of a group of other roosters and hens. The head rooster wins this position through fighting or pretend-fighting.</p> <p>Throughout history, roosters have been used in “cock fights.” People organize fights between roosters and bet on the winner. Roosters that are used in cock fights are specially bred and trained for strength. Although cock fighting is a traditional sporting event in nearly every part of the world, most Americans considered it to be animal cruelty. In fact, cock fighting is illegal in forty-nine states in the United States. Some community and state laws allow sentencing for up to three years in prison for those convicted of this crime. World-wide, thousands of birds are killed or hurt every year in cock fights.</p> <p>Roosters are domesticated animals. They have no threat of extinction. The number of chickens worldwide continues to increase. In fact, chickens are the world’s largest group of domesticated birds. Not all woodpeckers look the same. Most have two toes on the front of their feet and two on the back. Their tongues are long enough to curl all the way around their heads. Woodpeckers have strong pointed beaks. Their bottom tail feathers are strong and stiff. Most woodpeckers weigh only about one pound.</p> <p>These birds can be found all over the world. They live in wooded areas everywhere but in Australia. Their homes are often made in the tops of trees in forests. Most woodpeckers will make holes in trees with their beaks to build their nests. Some will find holes and use them. Different types of woodpeckers like different trees. But, many woodpeckers prefer cypress trees and redwoods.</p> <p>A woodpecker’s daily diet consists of different foods depending on the type of woodpecker. Common foods include insects, fruits, and nuts. Like many birds, woodpeckers enjoy eating worms. Woodpeckers are mainly omnivores. They use their beaks to hit bark on trees to expose bugs (ants and beetles, usually) which they then eat. Some woodpeckers have been found to eat sap from trees. Others eat mostly acorns.</p> <p>Female woodpeckers produce about four babies each season. Males and females work together to dig holes out of trees to provide a nest for their babies. Babies remain in their eggs for about two weeks until they hatch. When they hatch, they are blind and do not have any feathers. One parent goes out and finds food to bring back to the nest, while the other stays behind to protect the eggs. Babies usually leave the nest after about thirty days.</p> <p>Woodpeckers are known for their repetitive tapping on tree trunks to expose insects from tree bark. Some species tap on trees to communicate or attract other woodpeckers. Woodpeckers can tap more than ten thousand times a day! They are usually not very protective of their territory.</p> <p>The population of woodpeckers is generally not considered to be threatened, but their habitat in some areas has been reduced due to woodcutting and deforestation. Two species of these birds are considered officially endangered by the government. Still, the overall woodpecker population is balanced.</p>	<p>Australia beetles repetitive threatened considered</p>

These wild cows are in Midwestern America, India, and Africa. Wild cows are not the same as farm cows. Still, most cows live on farms, not in the wild.</p> <p>Cows on farms are fed based on their use. Beef cows are fed differently from dairy cows. A beef cow is fed corn, grain, and grasses. Farmers feed these cows a large amount of protein. Dairy cows need large amounts of fiber. Dairy cows provide milk and cream. Cows have very large stomachs that are divided into four parts. Each part has a different job in digesting food. Usually, only older cows are used to make clothes. Their hides (the outer layers of cow skins) are dried into leather.</p> <p>Baby cows are called <i>calves</i>. Some calves die at birth, because they are so large. Older cows have less problems giving birth than do young cows. Calves are nursed by their mothers for about ninety days. Adult cows like to stay in groups with each other. Bulls usually stay by themselves.</p> <p>Cows require a lot of care from farmers. Cow hooves have to be trimmed by farmers once or twice each year. The hair at the end of a cow’s tail (called the switch) must be frequently cleaned and trimmed. In the winter, cows are kept inside at night to protect them from the cold in most climates. Additionally, cows require a lot of fresh hay on which to sleep. They spend 40-50% of their day lying down. Cows take several naps throughout the day.</p> <p>In India, most people follow the religion of Hinduism. Hindus believe that cows are sacred animals. “The Boy Who Cried Wolf”

There once was a naughty shepherd boy who lived in a small village. One day this boy was sitting at the top of a hill and was very bored. As he watched the sheep under his care, he came up with an idea to entertain himself. He turned in the direction of the village and at the top of his lungs he began screaming, "Wolf! Wolf! The Wolf is after the sheep!"

The villagers immediately left their business and came running up the hill to help the boy scare the wolf away. But when they made it to the top of the hill, they found no wolf. Instead, they found the naughty boy laughing at the joke that he played on them.

"Never cry 'wolf,' shepherd boy," **scolded** the villagers, "when there's no wolf!" They went back to the village very angry.

The very next day, the naughty boy was bored again. "I wonder if the trick will work again" he thought. He went up to the top of the hill, turned toward the village, and once again screamed, "Wolf! Wolf! The wolf is after the sheep!" Once again, he howled with laughter as he watched the villagers run up the hill to help him scare the wolf away.

When the villagers again found no wolf, they scolded the boy once more saying, "Save your screaming for when there really is something wrong! Don't ever cry 'wolf' when there is no wolf!" But the boy just laughed and watched them go down the hill to the village once more.

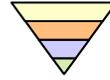

The next day, the naughty shepherd boy was again very bored. As he was dreaming up more mischief, he heard the bleating of his sheep. He ran toward the sound and then he saw what caused the sheep to cry. A huge wolf was **prowling** about his flock of sheep. Once again, he ran to the top of the hill and shouted, "Wolf! Wolf! The wolf is after the sheep!"

But the villagers had learned their lesson. They all said, "There goes that naughty shepherd boy playing his games once again." So the villagers didn't come. At sunset, some of the villagers wondered why the shepherd boy hadn't yet brought the sheep down to the village. They went up the hill to find the boy. They found him with his head down crying. Then they found out why he was crying. The flock was **scattered** everywhere and two sheep were dead.

"I cried out, "Wolf!" Why didn't you help me?"

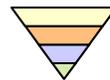

An old man responded, "That's what happens to those who lie. Sooner or later, no one believes them."

“Hansel and Gretel”

Once there lived a poor woodcutter with his two children and their stepmother. The boy was named Hansel and the girl was named Gretel. There was a severe **famine** in the land and the family was starving. Desperate, the stepmother said out loud to herself, “The children must go, else all of us will die of starvation.”

The children were so hungry that they had not been able to sleep, and they had heard their stepmother.

At sunrise, the stepmother woke the two children, saying, “Get up, we are going into the forest to gather wood.” She gave them each a bit of bread and said: “That’s all we have. Save it for your lunch.”

The stepmother led the children deep into the forest. Seeing her plan, Hansel dropped a small crumb of bread every few minutes, so that they could find their way home. Once they were completely lost, the stepmother ran away, leaving Hansel and Gretel alone.

“Don’t worry, Gretel,” said Hansel. “I have left a path to guide us back home. We will wait until father gets home and follow the trail by moonlight.”

Unfortunately, a flock of birds found and ate the trail of bread crumbs. Now, the children really were lost. Looking for water, the children saw a lighted **cottage**. They knocked on the door and an old woman welcomed them in to eat. She told them that she would help them go home the next day. She gave Hansel his own room and had Gretel sleep in the kitchen.

However, in the morning, they found the door to Hansel’s room locked. The old woman said, “I’ve been hungry, too. Last night, I fed you the last of my food. Now, you two will be my next meal!”

The old woman built a fire in her huge bread oven. Then, she told Gretel to open the oven door. But Gretel said, “The door is too heavy for me to open.”

As the old woman opened the door, Gretel gave her a shove into the oven. She shut the iron door and drew the bolt. How the old woman screamed! Gretel found an axe and broke the lock to Hansel’s room. As the children were leaving, Hansel caught a **glint** of light from something in a black pot by the door. The pot was full of precious rubies! Taking the jewels, they ran out into the woods. Just then, Hansel saw a bread crumb. The birds had not found all of them! The children followed the bread crumb trail back to their home.

Their father greeted them with a hug and said, “Your stepmother told me what she did and she left.” The children showed their father the rubies and told their story. The family of three lived happily ever after.

“Little Red Riding Hood”

There was once was a little girl who lived with her father and mother in a house at the edge of a forest. In the same forest, her grandmother also **resided**. Her grandmother had given her a long red hooded coat which she wore so much that everyone called her Little Red Riding Hood.

One morning Little Red Riding Hood's mother said, "Put on your coat and take this basket of cookies to your sick grandmother."

As Little Red Riding Hood was walking in the forest, a voice from behind said, "What have you in that basket, Little Red Riding Hood?" The girl turned around and saw a great big wolf.

"I have cookies for my **ailing** grandmother," she said.

"Ah... I know where she lives," the wolf said. "I hope she enjoys them." Then, the wolf ran into the forest toward the grandmother's house. He soon arrived and knocked at the door of her house.

"Who is there?" called the grandmother from her bed.

"Little Red Riding Hood," said the wolf in a girlish voice.

"Just open the door and come right on in."

The wolf opened the door and **pounced** on the bed, eating the grandmother up in one big bite. The wolf then put on the the grandmother's headscarf.

Soon afterwards, Little Red Riding Hood walked into the house saying, "Good morning, Grandmother, I brought you a basket of cookies." As she came close to the bed she said, "What big ears you have, Grandmother."

"All the better to hear you with, my dear."

"What big eyes you have, Grandmother."

"All the better to see you with, my dear."

"What a big nose you have."

"All the better to smell you with, my dear."

"But, Grandmother, what a big mouth you have."

"All the better to eat you up, my dear," screamed the wolf as he sprang at Little Red Riding Hood. Just at that moment, the woodcutter was passing the house and he heard the scream. He rushed in and with his axe chopped off the wolf's head.

The woodcutter carried Little Red Riding Hood back home. Everyone was happy that she had escaped the wolf. But, they were sad that the wolf had eaten her grandmother.

“Goldilocks and the Three Bears”

Once there was a little girl named Goldilocks. One day she went for a **stroll** in the forest. Soon, she came upon a house. She knocked and, when no one answered, she walked right into the house.

On the kitchen table, there were three bowls of **porridge**. Hungry, Goldilocks tasted the first bowl.

"This porridge is too hot!" she shouted. So, she tasted the porridge from the second bowl.

"This porridge is too cold," she said. So, she tasted the third bowl of porridge.

"Ahhh, this porridge is just right," she said and she ate the whole bowl.

After she'd eaten the porridge, she immediately felt **exhausted**. So, she walked into the big room and saw three chairs. Goldilocks sat down in the first one.

"This chair is too big!" she sighed. Then she sat in the second chair.

"This chair is also too big!" she complained. Then she tried the third chair.

"Ahhh, this chair is just right," she said. But just as she sat down into the chair, it broke into pieces.

Goldilocks was very tired, so she went into the bedroom. She lay in the first bed, but it was too hard. She lay in the second bed, but it was too soft. Finally, she lay down in the third bed and it was just right. Then, she fell asleep. Soon, the three bears came home.

"Someone's been eating my porridge," said the papa bear.

"Someone's been eating my porridge," said the mama bear.

"Someone's been eating my porridge and they ate it all up!" cried the baby bear.

"Someone's been sitting in my chair," growled the papa bear.

"Someone's been sitting in my chair," said the mama bear.

"Someone's been sitting in my chair and it's all broken," cried the baby bear.

They went upstairs to the bedroom and the papa bear growled, "Someone's been sleeping in my bed."

"Someone's been sleeping in my bed, too," said the mama bear.

"Someone's been sleeping in my bed and she's still there!" exclaimed baby bear.

Just then, Goldilocks woke up and saw the three bears. She screamed, jumped up, and ran out of the room. Goldilocks ran down the stairs and out the door. Goldilocks never went back to visit.

“Three Little Pigs”

Once upon a time there lived three little pigs. The first little pig was very lazy. He made his house out of straw. The second little pig was almost as lazy. He made his house out of sticks. The third little pig was not lazy. He was smart. This third little pig worked long hours to build a house completely out of brick.

One day, a wolf came into the pigs’ neighborhood. Smelling fresh **pork**, the wolf went up to the first pig’s house. He banged on the door and said, “Little pig, little pig. Let me in!”

“Not by the hair of my chinny-chin-chin,” **retorted** the first little pig.

“Then, I’ll huff, and I’ll puff, and I’ll blow your straw house down!” And he did so. But, as the house fell down, the first little pig escaped to the second pig’s house.

The hungry wolf next went up to the second pig’s house. He banged on the door and said, “Little pig, little pig. Let me in!”

“Not by the hair of my chinny-chin-chin,” responded the second little pig.

“Then, I’ll huff, and I’ll puff, and I’ll blow your stick house down!” And he did so. But, as the house fell down, the first and second little pigs escaped to the third pig’s house.

The very hungry wolf went up to the third pig’s house. He banged on the door and said, “Little pig, little pig. Let me in!”

“Not by the hair of my chinny-chin-chin,” responded the third little pig.

“Then, I’ll huff, and I’ll puff, and I’ll blow your brick house down!” said the hungry wolf. But, as much as he tried, the wolf could not blow the brick house down. So, the **famished** wolf climbed up the roof and jumped down the chimney.

Inside, the smart third little pig had been thinking. He knew that the wolf would not be able to get into the house any other way, than through the chimney. So he built a fire in the fireplace and boiled a huge pot of water.

The wolf slid right down into that boiling pot of water, and the three little pigs were saved.

“The Ape” Comprehension Worksheet #1

The ape is a very interesting animal. One type of ape is the orangutan. Male orangutans can weigh as much as two normal size humans. Females weigh about half as much. Orangutans have long, strong arms and their hands and feet are shaped like hooks. They are shaggy and have red hair.

Orangutans used to live all over Southeast Asia. Now they only live in a few rain forests on the islands of Sumatra and Borneo. Orangutans swing from tall trees to move around. It is warm where these animals live, but not too warm. There is a lot of rain there, so trees and plants grow very tall and big.

Orangutans are *omnivores*, since they eat some birds and small mammals. However, they mostly eat plants, like fruit and leaves, instead of meat. Their diet consists of mostly fruit. The fruits they tend to prefer have a lot of sugar in them. One fruit that they like in particular are figs. Figs come from trees and they are easy for orangutans to pick and eat. Orangutans also eat lots of young leaves from many trees in their habitat.

Unlike many other animals, orangutans are single adults, so they have no family structure. Mother orangutans raise their children one at a time. The baby rides on its mother’s back for three years at the start of its life. There, it learns how to pick food and protect itself from danger. Female orangutans usually have one baby every six years. Older male orangutans may fight each other for the attention of the available female orangutans.

The territory of an adult orangutan is not clearly established, as is the case with many animals. Often, orangutan territories will overlap. However, this does not mean that orangutans are social animals. They limit their social **interaction** to feeding, mating, and calling each other. Only rarely will orangutans get in fights with each other over food or territory. In these fights, the apes will **demonstrate** their strength by destroying branches, charging at each other, and biting each other until one gives up.

Due to deforestation of the rain forest (cutting down trees for grazing or farmland), orangutans are becoming more and more endangered with each day. Palm oil farmers have cut down much of the forest on Sumatra and Borneo. Some people even capture orangutans to use them as pets in their homes. Orangutans are already on international endangered species lists, and their habitat has been increasingly threatened by humans, mainly through the deforestation of the rain forest.

“The Eagle” Comprehension Worksheet #2

The eagle is a huge bird. One type of eagle is the bald eagle. This bird of prey has a large yellow beak shaped like a hook and a pure white head. Its body is brown with a white tail. Female bald eagles are much bigger than males.

Bald eagles live all over North and South America. They make their nests near rivers, ponds, and lakes. There they can find many fish. Bald eagles build the biggest nests of any bird in America. Mostly, the birds stay away from people. Some birds move their nests frequently.

Bald eagles eat whatever they can find. But, mostly they eat fish. Some of their favorite meals are trout and salmon. To catch fish, bald eagles swoop down over the water and grab the fish with their feet, called **talons**. If the fish is too heavy for the eagle to carry, it might have to swim in the water. Many eagles aren't able to swim very well. Sometimes, bald eagles will steal their food from other birds that are smaller.

At about five years old, bald eagles find mates. They pick partners as their mates for life. Sometimes, if the pair cannot have a baby, they will find new partners. Babies are hatched from eggs in their nests, which are made out of twigs and branches. Nests are usually in trees near open water. Mother and father eagles will take turns watching the eggs while the mate finds food or adds on to the nest.

The bald eagle is also an important symbol of the United States of America. It is known as the national bird of the United States. In 1782, the Continental Congress named the bald eagle as the national bird. Ben Franklin once wrote that he thought that it was a bad choice. He said the bald eagle was too cowardly to **symbolize** the nation. Instead, he suggested the turkey. Today, the bald eagle appears on official seals of the United States on the backs of several coins. It was on the back of the quarter until 1999, with its head turned towards an olive branch.

The bald eagle used to be a common sight in the United States. But, over the nation's history, this eagle's population has slowly decreased. This decrease is due to hunting and the use of pest spray by farmers. Many farmers used to spray DDT to reduce pests on their crops. This spray, when breathed by eagles, made them unable to have babies. Fortunately, the bald eagle population has begun to increase since DDT was **banned** as a pest spray. The bald eagle was officially removed from the list of endangered species in 1995.

“The Ibex” Comprehension Worksheet #3

An ibex is a wild goat. Ibexes have big, long horns that turn behind their heads. The horns have spiky bumps on them. Their fur is very short, and not shaggy like a dog’s fur. As the weather warms, the fur gets darker. Ibexes are about five feet long and three feet high. They weigh about as much as two people put together.

Ibexes live in the mountains. They are found in Europe, Asia, and Africa. Their homes are made in the rocks. Ibexes have very hard feet, so they can walk on rocks all day long. Some even live in snowy mountains, where it’s very cold. Mostly, they like to stay in the shade of trees in the daytime.

Ibexes are *herbivores*, so they eat only plants. In the daytime, when it is warm, they search for food. They usually eat leaves from trees that grow in their natural habitat. Many ibexes also search for fruit to eat. However, fruit is less common in some of their grazing areas. Although ibexes are plant eaters, this does not mean that they are less dangerous to humans. Ibexes dislike being near humans and will sometimes attack. The main animal that hunts for ibexes is the leopard.

Ibexes live in two different groups. Groups are made up of about ten to twenty ibexes. Males make up one group, and females and babies make up the other. Males fight each other to establish power in their groups and to win females as their mates. The most powerful male ibexes avoid each other and do not fight. This helps them avoid serious injury.

Ibexes are known for their charging abilities when they attack predators. Ibexes put down their heads and butt into their predators. Although younger ibexes often fight, they avoid hurting each other. In fact, much of their fighting involves circling and pretend charges, which are called *mock* charges.

Ibexes used to be the subjects of many game hunts. The handsome male heads were prized by hunters, and many of these heads were stuffed by *taxidermists* and then displayed in the homes of big game hunters. They were also hunted because of the medicinal properties of various parts of their bodies. However, the advancement of modern medicine has stopped most of the hunting of ibexes for their medicinal value. About ten thousand ibexes still live today in the world.

Interpret

(1) Why might the fur get darker as the weather warms?

Re-think

(2) How would hard feet be helpful for walking on rocks?

Connect

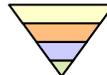

(3) Why might fruit be hard to find in the ibex habitat?

Predict

(4) Why do ibexes separate into two groups?

Summarize

(5) Summarize why ibexes were hunted so often.

“The Okapi” Comprehension Worksheet #4

The okapi looks like a mix of zebra and giraffe. These animals have dark backs. On their legs, they have white stripes. These stripes make them look like zebras. Their bodies look like small giraffes. But, they do not have very long necks. Their ears are big and pointy, and their tongues are long, too. Okapi have short horns that are covered by skin.

These animals like to live in large areas away from towns. They can be found only in the middle of Africa in the Democratic Republic of the Congo. Most okapi live in the mountains and forests. They leave scents to mark their territories. Males protect their land, but they allow females to walk through it to find food.

Okapi are strange eaters. They are *herbivores*, so they eat tree leaves, grass, and fungi. But, they also have been known to eat charcoal from burnt trees! Also, they commonly eat red clay from the ground near streams or rivers. Along with plants, charcoal, and clay, they eat fruit and berries. Okapi spend most of their day eating and searching for food. When they find food, they chew it, spit it out, and chew it again. This helps their weak **digestive** system.

Female okapi give birth to a single baby, called a calf. Babies are fed by their mothers and they grow quickly. Only thirty minutes after they are born, okapi can stand up and walk around. Mothers leave their babies during the day. They return at night to feed them. In zoos, okapi live for about thirty years. But, no one knows how long they live in the wild.

Although they generally live alone, Okapi have ways of communicating with each other. They make different sounds that zoologists are able to identify. One sound, called a *chuff*, is made when one okapi meets another. The *bleat* is used when an okapi calf is separated from its mother and put into danger.

The forests of the Democratic Republic of the Congo are threatened by people eager for their rich natural resources. As a result, okapi are losing their territory. Okapi are not only threatened by loggers, miners, and farmers, but they are also threatened by illegal hunters, called *poachers*, who hunt them for their valuable skins. The okapi population is currently **classified** as “near threatened” by extinction.

Predict

(1) From their description, do okapi seem like they would be predators?

Connect

(2) How do the okapi eating habits explain why they like to live in large areas away from towns?

Interpret

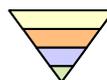

(3) Why don't scientists know how long they live in the wild?

Re-think

(4) What other types of communication would be important?

Summarize

(5) Summarize the reasons the okapi is threatened.

“The Mule” Comprehension Worksheet #5

Mules are babies, born from donkey and horse parents. They have short, thick heads. They have long pointy ears. Mules have a short mane, like most horses. They come in all shapes and sizes. Some mules can grow to weigh as much as six humans! Mules have small, strong hooves.

Most of the mules in the world are in China. In that country, mules are used for riding. Mules are also used for pulling carts. Many other mules are found in Mexico, South America, and North Africa. Mules live mostly on farms with people. There are only a few wild mules and many of these animals live in California. They were lost during the California Gold Rush of the 1850s and have survived in foothill canyons ever since.

The mule’s owner can purchase food for mules at any farm store. Mules have the same diets as horses and donkeys. However, they need less protein than horses. Their favorite snacks are hay or other dried grasses. Mules need lots of fresh, clean water. But, if they drink too much, they can have serious problems. Mule owners need to control their food and drink levels.

Since mules come from two different parent animals, they are called **hybrids**. Most mules are sterile. This means that they cannot produce any babies. But, some mules have been able to have babies. Mule babies are called *foals*. If a female mule and a male horse are the parents, then the foal is mostly horse-like. A male donkey produces a mostly donkey-like foal.

Mules are intelligent animals. They can endure hardship and severe conditions, which is why they are commonly used for transportation and farm work. Mules are **stubborn** if treated harshly. Horses will forgive their owners for treating them poorly, but mules generally will not. Mules are very proud animals. When treated well by their owners, mules are usually very friendly. They will bond and work well with people who treat them **decently**.

The number of mules in the world is increasing. Endangered animal agencies have rated the mule of “no concern” for extinction. In China, where there is the densest population, mules are still bred daily. The mule population is even increasing in industrialized nations.

Predict

(1) What advantages might the mix of donkey and horse produce?

Interpret

(2) Why are most of the mules found in those areas?

Re-think

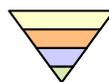

(3) How would mule owners need to plan ahead for additional mules?

Connect

(4) Why do mules respond as they do to the different ways in which they are treated?

Summarize

(5) Summarize the status of the overall world population of mules.

“The Rooster” Comprehension Worksheet #6

Roosters are male chickens. There are many types of roosters. They come in a variety of colors: brown, white, black, and red. Roosters have red combs on the top of their heads. They have yellow beaks. They have black feathers on their tails. Below their eyes, roosters have a white spot. Their thin legs and feet are gray or black.

Most roosters live on farms. In fact, chickens live in all areas of the world. But, most of them live in China and the United States. Most chicken owners keep their chickens in *coops*. A coop is a walled or screened shack designed for chickens. Coops keep roosters warm during the winter and cool in the summer time. Female chickens, called *hens*, even have built-in nesting spots in many coops.

Most roosters are fed by their owners. Their diet is made up of insects, worms, slugs, and snails. However, they also eat plants, fruit, seeds, acorns, and other foods. Roosters can find their own food if the owner wishes. But, they must have a lot of room to search for their food.

Farmers chiefly keep chickens for their eggs; however, some chicken farmers raise hens and roosters for their meat. The job of the rooster is to protect the nest and the hens. Usually, there is one rooster who is in charge of a group of other roosters and hens. The head rooster wins this position through fighting or pretend-fighting.

Throughout history, roosters have been used in “cock fights.” People organize fights between roosters and bet on the winner. Roosters that are used in cock fights are specially **bred** and trained for strength. Although cock fighting is a traditional sporting event in nearly every part of the world, most Americans considered it to be animal cruelty. In fact, cock fighting is illegal in forty-nine states in the United States. Some community and state laws allow **sentencing** for up to three years in prison for those convicted of this crime. World-wide, thousands of birds are killed or hurt every year in cock fights.

Roosters are domesticated animals. They have no threat of extinction. The number of chickens worldwide continues to increase. In fact, chickens are the world’s largest group of **domesticated** birds. With a population of over eight billion, there are more chickens than humans on earth!

Interpret

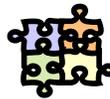

(1) Why are coops important to raising chickens?

Re-think

(2) Why would roosters that feed themselves need a lot of room?

Connect

(3) What other animals fight for leadership of their group?

Summarize

(4) Summarize the arguments of those opposed to cock fighting.

Predict

(5) Predict what will happen in the future to the world population of chickens.

“The Woodpecker” Comprehension Worksheet #7

Woodpeckers are some of the loudest birds around. Not all woodpeckers look the same. Most have two toes on the front of their feet and two on the back. Their tongues are long enough to curl all the way around their heads. Woodpeckers have strong pointed beaks. Their bottom tail feathers are strong and stiff. Most woodpeckers weigh only about one pound.

These birds can be found all over the world. They live in wooded areas everywhere but in Australia. Their homes are often made in the tops of trees in forests. Most woodpeckers will make holes in trees with their beaks to build their nests. Some will find holes and use them. Different types of woodpeckers like different trees. But, many woodpeckers prefer cypress trees and redwoods.

A woodpecker’s daily diet consists of different foods depending on the type of woodpecker. Common foods include insects, fruits, and nuts. Like many birds, woodpeckers enjoy eating worms. Woodpeckers are mainly *omnivores*. They use their beaks to hit bark on trees to expose bugs (ants and beetles, usually) which they then eat. Some woodpeckers have been found to eat sap from trees. Others eat mostly acorns.

Female woodpeckers produce about four babies each season. Males and females work together to dig holes out of trees to provide a nest for their babies. Babies remain in their eggs for about two weeks until they hatch. When they hatch, they are blind and do not have any feathers. One parent goes out and finds food to bring back to the nest, while the other stays behind to protect the eggs. Babies usually leave the nest after about thirty days.

Woodpeckers are known for their **repetitive** tapping on tree trunks to **expose** insects from tree bark. Some species tap on trees to communicate or attract other woodpeckers. Woodpeckers can tap more than ten thousand times a day! They are usually not very protective of their territory.

The population of woodpeckers is generally not considered to be threatened, but their **habitat** in some areas has been reduced due to woodcutting and deforestation. Two species of these birds are considered officially endangered by the government. Still, the overall woodpecker population is balanced.

Interpret

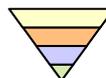

(1) Why aren’t woodpeckers found in Australia?

Re-think

(2) How do the physical features of woodpeckers help them get the foods they eat?

Summarize

(3) Summarize the relationship between the male and female woodpecker.

Connect

(4) Why are woodpeckers considered to be some of the loudest birds on earth?

Predict

(5) Why would many think that woodpeckers are pests?

“The Cow” Comprehension Worksheet #8

Cows have many uses. Farmers raise cows for different reasons. Some raise cows for their meat. Others raise cows for their dairy products. Cows come in many different colors. Cows can be brown, white, or black. Male cows are called *bulls*, and they have horns. Female cows are gentle. Bulls can be mean and dangerous.

Almost every place in the world has cows. Cows live in grassy **meadows** or on farms. There are some wild cows left in the world. These wild cows are in Midwestern America, India, and Africa. Wild cows are not the same as farm cows. Still, most cows live on farms, not in the wild.

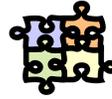

Cows on farms are fed based on their use. Beef cows are fed differently from dairy cows. A beef cow is fed corn, grain, and grasses. Farmers feed these cows a large amount of protein. Dairy cows need large amounts of fiber. Dairy cows provide milk and cream. Cows have very large stomachs that are divided into four parts. Each part has a different job in **digesting** food. Usually, only older cows are used to make clothes. Their *hides* (the outer layers of cow skins) are dried into leather.

Baby cows are called *calves*. Some calves die at birth, because they are so large. Older cows have less problems giving birth than do young cows. Calves are nursed by their mothers for about ninety days. Adult cows like to stay in groups with each other. Bulls usually stay by themselves.

Cows require a lot of care from farmers. Cow hooves have to be trimmed by farmers once or twice each year. The hair at the end of a cow’s tail (called the *switch*) must be frequently cleaned and trimmed. In the winter, cows are kept inside at night to protect them from the cold in most climates. Additionally, cows require a lot of fresh hay on which to sleep. They spend 40-50% of their day lying down. Cows take several naps throughout the day.

In India, most people follow the religion of Hinduism. Hindus believe that cows are **sacred** animals. Hindus do not eat them and cows are free to roam about the countryside. Worldwide, cows are certainly not endangered animals. There are over 1.3 billion cows still in the world today. That number is almost equal to one cow for every six people on earth.

Connect

(1) What other animals have mean or dangerous males?

Interpret

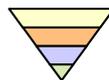

(2) Why are there few wild cows left in the world?

Re-think

(3) Why would only older cows be used for their hides?

Summarize

(4) Summarize the difficulties in raising cows.

Predict

(5) Why are cows not likely to become endangered animals?

Sentence Revisions and Literary Response Introduction

This Writing Literacy Center helps your students practice both **sentence revisions and literary response**. The sentence revisions activity focuses on sentence structure, word choice, and sentence variety to improve student essays (W.1, 2). Literary response focuses on manipulating rhetorical stance (voice, audience, purpose, form) by responding to famous literary quotations to improve narrative writing technique and style (W.3).

Materials Preparation

Print the sentence revisions and literary response activities for each student. Also print the sentence revisions answers and laminate these.

Pre-Teaching to the Whole Class

Teachers should read the directions and help students complete the first sentence revision and literary response activities.

Task Card Directions for Sentence Revisions and Literary Response

1. The Clarifier picks up the task card and will ask the teacher any questions about directions. The Task Manager writes down the ending time for this literacy center. The People Manager makes sure that everyone in the group has the sentence revision activity and reminds students to write their names on the page.
2. The Reader reads the sentence revision Lesson Focus out loud in a soft voice, and the Task Manager helps the group summarize the Key Idea(s) of the lesson on the lines provided in the second column.
3. After each student has completed the summaries, the Reader reads the Example(s), and the Clarifier asks students to explain how each example relates to the Lesson Focus.
4. The Reader reads the sentence revision task, and students complete this task individually.
5. Upon completion, the Clarifier asks students to share their sentence revisions. The Task Manager gets the answers from the teacher and students self-correct and revise their answers.
6. Next, students turn their papers over to the back and the Reader reads the Literary Quotation and the Definition/Explanation/Reflection.
7. The Task Manager reads each of the Observation, Interpretation, and Application questions. *Observation* is What do you see? *Interpretation* is What does it mean? *Application* is How can this be used? The Task Manager pauses after each question and the Clarifier asks for responses. The People Manager encourages all students to respond.
8. After completing discussion, students complete the Revision and Draw tasks individually. If time remains, the Clarifier asks students to share their responses.

Sentence Revisions #1

Delete the Unnecessary “here” Word

Lesson Focus

Our sentence revisions task is to **delete the unnecessary “here” word**. The **unnecessary “here” word** begins sentences or clauses and follows with a “helping verb” (*has been, had been, will be, shall be, should be, would be, can be, could be, may be, might be, must be*) or a “linking verb” (*is, are, was, were*).

To delete the unnecessary “here” word, place the subject of the sentence at the beginning with or without its article (*a, an, or the*) and change the verb form as needed.

Key Idea(s)

Examples

Here are four friends who play softball.
This sentence can be better revised as...
Four friends play softball.

Here is the blue pen to use to write your grandmother.
This sentence can be changed to...
Use the blue pen to write your grandmother.

Revise this sentence by deleting the unnecessary “here”:

Here is the boy who is eating lunch by himself at this table.

Sentence Revision

Sentence Revisions #2

Proper Noun Sentence Openers

Lesson Focus

Our sentence revisions task is to change common nouns to **specific proper nouns**. A **proper noun** is the name of a person, place, or thing. It can act or be acted upon and is capitalized. A proper noun may be a single word, a group of words (with or without abbreviations), or a hyphenated word.

Because proper nouns name singular and plural persons, places, and things, they are more specific than common nouns or pronouns.

Key Idea(s)

Examples

The friends enjoy having dinner guests.

This sentence can be revised as...

The Johnsons enjoy having dinner guests.

They arrived tired and cranky from their trip.

This sentence can be revised as...

Tyrone and Linda arrived tired and cranky from their trip.

Revise this sentence by using a proper noun sentence opener:

Your two cats have destroyed your vegetable garden.

Our sentence revisions task is to **delete the unnecessary “there” word**. The **unnecessary “there” word** begins sentences or clauses and follows with a “helping verb” (*has been, had been, will be, shall be, should be, would be, can be, could be, may be, might be, must be*) or a “linking verb” (*is, are, was, were*).

To delete the unnecessary “there” word, place the subject of the sentence at the beginning with or without its article (*a, an, or the*) and change the verb form as needed.

Key Idea(s)

Examples

There are three students waiting in the cafeteria line.

This sentence can be changed to...

Three students wait in the cafeteria line.

There are the three students waiting over there.

This sentence can be changed to...

The three students wait over there.

Revise this sentence by deleting the unnecessary “there”:

There was the boy who was making all the noise over in the corner.

Sentence Revisions #4

Pronoun Sentence Openers

Lesson Focus

Our sentence revisions task is to replace a noun with a **pronoun**. A **pronoun** is used in place of a noun. Personal pronouns include *I, me, you, he, she, it, we, us, they*, and *them*. Possessive pronouns used without nouns include *mine, yours, his, hers, ours, yours*, and *theirs*.

Demonstrative pronouns used without nouns include *this, these, that, and those*. Each of these pronouns can serve as substitutes for nouns to help writers avoid repeating the same nouns.

Key Idea(s)

Example

Jesse is sick. Jesse can't come to school. His mother is using an old thermometer to check his fever, but the thermometer we have is new. The thermometer we have is more accurate. Plus, her thermometer must be cleaned after each use. Cleaning the thermometer after each use is a waste of time.

These sentences can be revised as...

Jesse is sick. He can't come to school. His mother is using an old thermometer to check his fever, but the thermometer we have is new. Ours is more accurate. Plus, her thermometer must be cleaned after each use. That is a waste of time.

Revise this sentence by using pronouns in place of repeating nouns:

Tom plays soccer because soccer is Tom's favorite sport.

Sentence Revisions #5

Delete the Unnecessary “it” Word

Lesson Focus

Our sentence revisions task is to **delete the unnecessary “it.”** The **unnecessary “it”** begins sentences or clauses and follows with a “helping verb” (*has been, had been, will be, shall be, should be, would be, can be, could be, may be, might be, must be*) or a “linking verb” (*is, was*).

The “it” + helping or linking verb is frequently followed by a noun or pronoun and then a *that, which, or who*. To delete the unnecessary “it” word, place the subject of the sentence at the beginning with or without its article (*a, an, or the*) and change the verb form as needed.

Key Idea(s)

Examples

It was Mr. Lansing on the playground.

This sentence can be changed to...

Mr. Lansing was on the playground.

It is the teacher who prints grade reports.

This sentence can be changed to...

The teacher prints grade reports.

Revise this sentence by deleting the unnecessary “it”:

It has been proved by medical research that smoking causes lung cancer.

Sentence Revision

Sentence Revisions #6

Adjective Sentence Openers

Lesson Focus

Our sentence revisions task is to start a sentence with an **adjective**. An **adjective** modifies a proper noun, common noun, or pronoun, answering Which One? How Many? or What Kind? When the adjective serving as a sentence opener is emphasized, it is followed by a comma.

Key Idea(s)

Examples

- *Which One?*

Beautiful, the contestant won the pageant.

- *How Many?*

Seventy-eight was a lot of napkins to fold.

- *What Kind?*

Adventurous, the extreme snowboarder stayed on the slopes all day.

Revise this sentence by using an adjective sentence opener:

The girl was sweet and kind to her grandmother and assisted her to the table.

Sentence Revision

Sentence Revisions #7

Delete Unnecessary Writing References

Lesson Focus

Our sentence revisions task is to **delete unnecessary writing references**. Using phrases that refer to the writing itself are not needed and tends to make writing wordier. Eliminate such phrases to make your writing more direct.

Key Idea(s)

Examples

This story (or essay or paper or report) is about how a caterpillar changes over the course of its life into a butterfly.

This sentence can be better revised as...

A caterpillar changes over the course of its life into a butterfly.

In this essay (or paper or report or paragraph) I will show that slavery damaged America in many ways.

This sentence can be better revised as...

Slavery damaged America in many ways.

The following paragraphs (or essay or paper or report) will prove that Americans are still patriotic.

This sentence can be better revised as...

Americans are still patriotic.

Revise this sentence by deleting the unnecessary writing reference:

In this essay you will see that freedom of speech is essential.

Sentence Revision

Sentence Revisions #8

Possessive Pronoun Sentence Openers

Lesson Focus

Our sentence revisions task is to start a sentence with a **possessive pronoun**. A **possessive pronoun** shows ownership and may be used before a noun or without a noun.

Before a noun—*my, your, his, her, its, our, your, their*

When a possessive pronoun is used before a noun, it modifies the noun. The connected verb must match the noun, not the pronoun.

Without a noun—*mine, yours, his, hers, ours, yours, theirs*

When a possessive pronoun is used without a noun, the connected verb must match the noun which the pronoun represents.

Key Idea(s)

Examples

- Before a noun
His science project is better organized.
- Without a noun
Hers is the best house for a party.

Revise this sentence by using a possessive pronoun sentence opener:

A priority became a college education for their children.

Literary Response Lesson #1

Literary Quotation

“All would live long, but none would be old.”

Benjamin Franklin (1706 – 1790)

Definition/Explanation/Reflection: Growing old presents both opportunities and challenges.

Observation: What do you see? What do you feel? What seem to be the key words?

Interpretation: How would you put this into your own words? What does this mean? What doesn't this mean? What does this suggest? Why does the author say this?

Application: How can this be used? How could this thought affect something else? What conclusions can be drawn from this? Do you agree with this? How does this apply to you?

Revision: How else could this have been written? Revise this to reflect your point of view or ideas. Create something new to say about this subject.

Draw: Create a visual to summarize or respond to the literary quotation: A cartoon, a symbol, a graphic organizer, cut-outs from a printed computer image or magazine, or? Use the back if you wish.

Literary Response Lesson #2

Literary Quotation

“Indifference and neglect often do much more damage than outright dislike.”

J.K. Rowling (1965 –)

Definition/Explanation/Reflection: *Indifference* means to not be interested. *Neglect* means to not pay attention.

Observation: What do you see? What do you feel? What seem to be the key words?

Interpretation: How would you put this into your own words? What does this mean? What doesn't this mean? What does this suggest? Why does the author say this?

Application: How can this be used? How could this thought affect something else? What conclusions can be drawn from this? Do you agree with this? How does this apply to you? What conclusions can be drawn from this? Do you agree with this? How does this apply to you?

Revision: How else could this have been written? Revise this to reflect your point of view or ideas. Create something new to say about this subject.

Draw: Create a visual to summarize or respond to the literary quotation: A cartoon, a symbol, a graphic organizer, cut-outs from a printed computer image or magazine, or? Use the back if you wish.

Literary Response Lesson #3

Literary Quotation

“Four be the things I'd have been better without: love, curiosity, freckles and doubt.”

Dorothy Parker (1893 – 1967)

Definition/Explanation/Reflection: Many things in life are both good and bad.

Observation: What do you see? What do you feel? What seem to be the key words?

Interpretation: How would you put this into your own words? What does this mean? What doesn't this mean? What does this suggest? Why does the author say this?

Application: How can this be used? How could this thought affect something else? What conclusions can be drawn from this? Do you agree with this? How does this apply to you?

Revision: How else could this have been written? Revise this to reflect your point of view or ideas. Create something new to say about this subject.

Draw: Create a visual to summarize or respond to the literary quotation: A cartoon, a symbol, a graphic organizer, cut-outs from a printed computer image or magazine, or? Use the back if you wish.

Literary Response Lesson #4

Literary Quotation

“We shall not fail or falter; we shall not weaken or tire... Give us the tools and we will finish the job.”

Sir Winston Churchill (1874 – 1965)

Definition/Explanation/Reflection: To falter means to hesitate. The author was Great Britain’s leader during World War II.

Observation: What do you see? What do you feel? What seem to be the key words?

Interpretation: How would you put this into your own words? What does this mean? What doesn’t this mean? What does this suggest? Why does the author say this?

Application: How can this be used? How could this thought affect something else? What conclusions can be drawn from this? Do you agree with this? How does this apply to you?

Revision: How else could this have been written? Revise this to reflect your point of view or ideas. Create something new to say about this subject.

Draw: Create a visual to summarize or respond to the literary quotation: A cartoon, a symbol, a graphic organizer, cut-outs from a printed computer image or magazine, or? Use the back if you wish.

Literary Response Lesson #5

Literary Quotation

“Do something every day that you don't want to do; this is the golden rule for acquiring the habit of doing your duty without pain.”

Mark Twain (1835 – 1910)

Definition/Explanation/Reflection: The Golden Rule is “Do to others how you would like them to do to you.”

Observation: What do you see? What do you feel? What seem to be the key words?

Interpretation: How would you put this into your own words? What does this mean? What doesn't this mean? What does this suggest? Why does the author say this?

Application: How can this be used? How could this thought affect something else? What conclusions can be drawn from this? Do you agree with this? How does this apply to you?

Revision: How else could this have been written? Revise this to reflect your point of view or ideas. Create something new to say about this subject.

Literary Response Lesson #6

Literary Quotation

“I do not want people to be agreeable, as it saves me the trouble of liking them.”

Jane Austen (1775 – 1817)

Definition/Explanation/Reflection: Good friendships take time and effort.

Observation: What do you see? What do you feel? What seem to be the key words?

Interpretation: How would you put this into your own words? What does this mean? What doesn't this mean? What does this suggest? Why does the author say this?

Application: How can this be used? How could this thought affect something else? What conclusions can be drawn from this? Do you agree with this? How does this apply to you?

Revision: How else could this have been written? Revise this to reflect your point of view or ideas. Create something new to say about this subject.

Literary Response Lesson #7

Literary Quotation

“Nearly all men can stand adversity, but if you want to test a man's character, give him power.”

Abraham Lincoln (1809 – 1865)

Definition/Explanation/Reflection: *Adversity* means unfortunate events that stand in the way of success.

Observation: What do you see? What do you feel? What seem to be the key words?

Interpretation: How would you put this into your own words? What does this mean? What doesn't this mean? What does this suggest? Why does the author say this?

Application: How can this be used? How could this thought affect something else? What conclusions can be drawn from this? Do you agree with this? How does this apply to you?

Grammar and Mechanics Lessons Introduction

The authors of the Common Core State Standards list the grade-level language conventions content and skills in the first three [Language Strand Standards](#). Most teachers refer to L.1 simply as *grammar* and L.2 as *mechanics*. Clearly, L.3 refers to the application of L.1 and L.2 in the four communicative contexts of English-language arts. The Language Conventions Academic Literacy Center provides 56 *grammar and mechanics* lessons, designed to teach all three Standards. Grades 4–8 alignment documents follow the lessons.

Conventions of Standard English

L.1: Demonstrate command of the conventions of standard English grammar and usage when writing or speaking.

L.2: Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing.

Knowledge of Language

L.3: Use knowledge of language and its conventions when writing, speaking, reading, or listening

Instructional Format

Each Grammar and Mechanics lesson consists of four pages and takes 20 minutes to complete.

The **first page** is in Cornell Notes format and provides the content and skills in the Mechanics Notes and Grammar and Usage Notes sections. The Links and Response sections provide online resources for additional grade-level practice. Space is provided in this section for students to list key ideas, comment, make connections, and write questions. Additional space is provided at the bottom of the lesson for students to summarize the key mechanics and grammar content or skills.

The **second page** duplicates the lesson text of the first page, but adds examples for the students to copy in the spaces provided on the first page. The Links and Resources sections provide online resources for extended learning (acceleration) and additional practice (remediation).

The **third page** provides students with practice for both the mechanics and grammar content and skills. Students individually apply the lessons with identification, error analysis, sentence revisions, and sentence combining in the writing context.

The **fourth page** consists of the practice answers. Students self-correct as a group to learn from their mistakes.

Note: The author provides the same 56 grades 4–8 grammar and mechanics lessons in the *Grammar and Mechanics Interactive Notebook* with 3D graphic organizers and grammar cartoons with writing response for each lesson. Additionally, the author provides the comprehensive grade-level (4, 5, 6, 7, 8, and high school) *Teaching Grammar and Mechanics* programs with interactive instruction and student workbooks. These programs include all lesson components, plus simple sentence diagrams, mentor texts, and a brief writing application. Students complete two sentence dictation formative assessments. Click [HERE](#) to preview.

Materials Preparation

Print the Cornell Notes lesson and the practice page back-to-back for each student. Print and laminate one copy of the examples and practice answers pages for the center. Alternatively, teachers may choose to display these sections on tablets or projection.

If tablets or computers are available, students can access the online resources. Or teachers can share these resources with the whole class.

Pre-Teaching to the Whole Class

Teachers should read the directions and help students complete the worksheet.

Task Card Directions for the Grammar and Mechanics Lessons

1. The Clarifier picks up the task card and will ask the teacher any questions about directions. The Task Manager writes down the ending time for this literacy center. The People Manager makes sure that everyone in the group has the worksheet and reminds students to write their names on the page.
2. The Reader reads the Mechanics Notes in the right column out loud in a soft voice and stops at the Example(s). Students copy down the example(s) **for that section only**. The Clarifier asks students how the examples relate to the mechanics rule. Continue to follow these steps for the rest of the Mechanics Notes. View and/or listen to the online resources (if assigned by your teacher). In the Links and Response section, list key ideas, comment on the lesson skills, make connections to prior learning, and write any questions to ask your teacher. Summarize the the key mechanics skills at the bottom of the page (if assigned by your teacher).
3. The Reader reads the Grammar and Usage Notes in the right column out loud in a soft voice and stops at the Example(s). Students look copy down the example(s) **for that section only**. The Clarifier asks students how the examples relate to the grammar and usage rule. Continue to follow these steps for the rest of the Grammar and Usage Notes. View and/or listen to the online resources (if assigned by your teacher). In the Links and Response section, list key ideas, comment on the lesson content or skills, make connections to prior learning, and write any questions to ask your teacher. Summarize the the key grammar and usage content or skills at the bottom of the page (if assigned by your teacher).
4. Next, students individually complete the Practice sentences directions. When most of the students have completed the sentences, the Reader reads the answers and the Clarifier helps the group identify and sentence answers. The Clarifier asks the teacher for help if necessary.

Grammar and Mechanics Unit Tests

The biweekly Grammar and Mechanics Unit Test is designed to assess student mastery of the content, skills, or rules after teaching four mechanics and four grammar lessons. For example, if students complete lessons 1 and 2 on Tuesday and Thursday for the first week and lessons 3 and 4 on Tuesday and Thursday for the second week, students will be prepared to take the unit test the following day (on Friday).

Administrative Options

The Grammar and Mechanics Unit Test has been designed to take only 15–20 minutes for most students to complete. More time learning and less time testing! Teachers may elect to give the unit tests every four weeks by combining two of each test to assess mastery of eight lessons.

Some teachers choose to allow group members to collaborate on some of all of the test and/or use some of all of the literacy center written resources.

Test Structure and Grading

Each Grammar and Mechanics Unit Test has eight matching questions: two from each mechanics and two from each grammar lesson. Students are required to define terms and identify examples. The sentence application section also has eight test problems: two from each mechanics and two from each grammar lesson. Students are required to apply their understanding of the mechanics and grammar content, skills, or rules in the writing context through original sentence applications or revisions. Test answers for each matching section are provided at the end of the unit tests.

Test Review Options

Pretest

Teachers may review key grammar and mechanics content, skills, and rules the day before the unit test.

Posttest

Teachers may choose to review the matching section answers of the test and/or re-teach any deficiencies. Or teachers may elect to rely upon the resources of the Remedial Grammar and Mechanics Literacy Center (sold as a separate literacy center) to fill in any gaps. This literacy center includes diagnostic grammar, usage, and mechanics assessments with corresponding remedial worksheets (each with a formative assessment).

Vocabulary Worksheets and Study Guides Introduction

This Vocabulary Academic Literacy Center helps your students practice these Common Core Standards:

- Multiple Meaning Words and Context Clues (L.4.a.)
- Greek and Latin Word Parts (L.4.a.)
- Language Resources (L.4.c.d.)
- Figures of Speech (L.5.a.)
- Word Relationships (L.5.b.)
- Connotations (L.5.c.)
- Academic Language Words (L.6.0)

Materials Preparation

Print the odd and even-numbered vocabulary worksheets and the vocabulary study guides back-to-back for each student. The Vocabulary Literacy Center will need a dictionary and thesaurus for the maximum number of students learning at the center at one time (online resources are fine) and scissors. Provide scissors to cut out the vocabulary study guides.

Pre-Teaching to the Whole Class

Teachers should read the step-by-step directions for the odd-numbered vocabulary worksheets and help students complete Vocabulary Worksheet #1 together as a class. Afterwards, students should complete Vocabulary Worksheet #3 in the Vocabulary Literacy Center. Beginning the next week, teachers should read the step-by-step directions for the even-numbered vocabulary worksheets and help students complete Vocabulary Worksheet #2 together as a class. Afterwards, students should complete Vocabulary Worksheet #4 in the Vocabulary Literacy Center. Thereafter students can complete the vocabulary worksheets in numerical order.

If the teacher has not yet introduced the **SALE** Context Clues Strategies mentioned in the Reading Literacy Center directions, this lesson should be completed prior to starting the Vocabulary Literacy Center (Click [HERE](#) for the lesson).

Teacher Directions for the Odd-Numbered Vocabulary Worksheets

Multiple Meaning Words

Introduce the two Multiple Meaning Words, identify the parts of speech, and read their definitions out loud. Then read and explain the directions.

Next, read the sentences out loud and complete a “think aloud” as you use context clues to decide which definition number best matches each vocabulary word. Finally, direct students to fill in the definition numbers in the spaces provided.

Greek and Latin Word Parts: Prefixes, Roots, and Suffixes

Introduce the two **Greek and Latin Word Parts** and read their definitions out loud. Remind students how prefixes, roots, and suffixes function in words: Prefixes are word parts which appear at the beginnings of some words; roots may be complete words (base words) or word parts and serve as the main “building blocks” for the meaning of the word; and suffixes are word parts which appear at the endings of some words to provide additional meaning or to show how the word would be used in a sentence.

Then read and explain the first sentence of the directions. Ask students to brainstorm which words they know which include each of the word parts. Write their example words on the board and then direct students to write two choices in the blanks under the “Example Words” column. Remind students that they can consult a dictionary to find example words for the prefixes and roots, but not suffixes because of the alphabetical order of dictionaries.

Now read and explain the second sentence of the directions. Ask students to guess the definition of the word formed from the word parts and write their responses on the board. Encourage students to use the words listed under the “Meaning” column, but also add on their own words or reverse the order of the word part meanings to make the best sense. Complete sentences are not required. Finally, direct students to write their own definition in the space provided.

Language Resources: Dictionary and Thesaurus

Locate the Greek and Latin vocabulary word listed under the Language Resources: Dictionary and Thesaurus section on the Vocabulary Worksheet. Display the dictionary entry found in the print or online dictionary that students will use to complete this section.

Read and explain the first set of directions: “Consult a dictionary to divide the vocabulary word into syl/la/bles, mark its primary áccent, list its part of speech, and write its primary definition. Compare to your definition above.”

- Show students how the dictionary divides the vocabulary word into syllables* and direct student to use slashes (/) for these syllable divisions of the Greek and Latin vocabulary words. Point out that the Greek and Latin vocabulary words don’t always follow English syllabication rules. (English syllable rules are found in Spelling Resources Appendix B.)
- Show students how the dictionary marks the primary accent and tell them to place the (´) accent mark over the stressed vowel or last vowel in a vowel team for the Greek and Latin vocabulary words. For example, a/boút. Remind students to mark slashes (/) between, *not through*, the letters. Note: One good technique to help students hear primary accents is to clap on the primary accented syllable and snap on the unaccented syllable(s). (English accent rules are found in Spelling Resources Appendix B.)
- Show students how the dictionary may or may not label the abbreviated part of speech. Tell students that they are to use these abbreviations to label the parts of speech in the parentheses which follow. Refer to the dictionary abbreviations for the parts of speech previously listed or displayed on the board: *n., pron., adj., v., adv., conj., prep.*
- Show students how the dictionary lists the primary (first) ** and secondary definitions (thereafter). Tell your students to write the primary definition for the Greek and Latin vocabulary words in the spaces provided on their Vocabulary Worksheets.
- Compare the primary dictionary definition of the Greek and Latin vocabulary word to the students’ definition guesses derived from the Greek and Latin word parts. Point out that the Greek and Latin word parts can provide important clues to the meanings of academic words. However, because words change meanings over time, the word parts aren’t always helpful clues to the meaning of a word.

*Dictionaries differ in how they divide syllables (pronunciation or morphemes).

Now read and explain the second sentence of the directions. Explain that students must list other words which have a certain relationship to the Greek and Latin vocabulary words. Students list synonyms, antonyms, or inflected forms of the vocabulary words in the spaces provided.

- **Synonym** _____
A synonym is a word or phrase similar in meaning to that of the vocabulary word. Show students where to find synonyms to the entry word in the dictionary or thesaurus.
- **Antonym** _____
An antonym is a word or phrase opposite in meaning to that of the vocabulary word. Show students where to find antonyms to the entry word in the dictionary or thesaurus. Direct students *not* to use negations to form antonyms on their Vocabulary Worksheets. For example, for the vocabulary word *courageous*: *cowardly* would be an acceptable antonym; *uncourageous* would not because using the prefix “un” forms a simple negation.
- **Inflected Form** _____
An inflected form is a related word with the same root, but a different prefix or suffix. Remember that a root can be a complete root (a base word), such as *read* or an incomplete root, such as *vis*. An inflected form is listed in boldface after the entry word or as separate entry word before or after the vocabulary word. Show students where to find inflected forms of an entry word in the dictionary.

Finally, direct students to write their word choices in the spaces provided.

Figures of Speech

Tell students that a figure of speech is a non-literal expression used by a certain group of people. For example, The man walked through the door. Although we say *through the door*, we don't literally mean exactly what we say. *Through the door* is one type of figure of speech known as an idiom. Let students know that they will explore many types of figures of speech in the Vocabulary Worksheets.

Now read and explain the directions. Ask students to share their interpretations or explanations of the idiom. After several responses, help clarify and paraphrase as necessary, so students can write a concise answer in the space provided.

Vocabulary Study Guides

Tell students that the study guides will help them practice the vocabulary words and definitions for the biweekly vocabulary unit test. Each study guide consists of 2 sides. For example, for the first vocabulary study guide, the front side has 10 words from Vocabulary Worksheets #1 and 2. The back side has 10 words from Worksheets #3 and 4.

Demonstrate how to cut and fold the vocabulary study guides. Cut the rectangle surrounding the words and fold the four columns into one column (accordion style) so that the vocabulary words are on one side and their definitions are on the other side. Show students how to practice memorization by reciting the definitions individually and in pairs or triads.

Teacher Directions for the Even-Numbered Vocabulary Worksheets

Word Relationships

Tell students that they will be exploring different types of **word relationships** throughout the Vocabulary Worksheets. Read the directions to the Word Relationships section out loud. Remind students about the S.A.L.E. Context Clues Strategies

Now introduce the two vocabulary words and read their definitions out loud. Ask students to share context clues sentences which *show, not tell, the meaning* of the vocabulary words. Write the best two sentences on the board.

Next, discuss the relationship between the meanings of the two vocabulary words. Ask students to share transition words which would correctly signal the relationship between their two sentences. Write the best transition word or phrase on the board.

Direct students to complete the Word Relationships section with the two sentences joined by the transition word or phrase listed on the board.

Connotations: Shades of Meaning

Explain the difference between denotation (dictionary definition) and connotation (definition in context). List or display the following example words and brainstorm how these words have different shades of meaning.

walk **jog** **run** **race**

Use a rainbow to describe the concept of a spectrum and explain that a spectrum can be used to show how words relate to each other.

Now read and explain the directions. Introduce the two vocabulary words, tell their parts of speech, and read their definitions out loud. Ask students to explain the relationships between the two words already printed on the Connotation Spectrum and the two vocabulary words.

Tell students to write the two vocabulary words in their proper places on the Connotation Spectrum. Review answers and tell students to correct errors if necessary.

Academic Language

Tell students that academic language words are those most often found in their textbooks. Introduce the first academic language word and read its definition out loud. Then read and explain the directions for each box.

Brainstorm words and phrases which are “Similar to...” the vocabulary word and direct students to write one down in the box. Continue this process with the “Different than...” section. Tell students not to use negations (*not, dis, un,* etc. in this section. Continue with the “Example, Characteristics, or Picture” section. Tell students to choose just one of these descriptions per box.

Finally, direct students to complete the second academic language word descriptions on their own. Then review and correct answers.

Task Card Directions for Odd-Numbered Vocabulary Worksheets

1. The Clarifier picks up the task card and will ask the teacher any questions about directions. The Task Manager writes down the ending time for this Literacy Center. The People Manager makes sure that everyone in the group has the correct vocabulary worksheet and reminds students to write their names on the page.
 2. The Reader reads the Multiple Meaning Words title and directions, vocabulary words, and definitions out loud in a soft voice. The Clarifier helps students brainstorm which number of the definition best matches the use of each vocabulary word.
 3. The Reader reads the Greek and Latin Word Parts title and directions, the word parts, and their meanings. The Clarifier helps students brainstorm example words which use each of the Greek and Latin word parts. Next, students use the word part meanings (reverse the order if helpful) or their own words to guess the meaning of the vocabulary word. Students may use the dictionary if they cannot agree on a suitable definition guess.
 4. The Reader reads the Language Resources: Dictionary and Thesaurus title, the first set of directions, and the vocabulary word. The Task Manager finds the vocabulary word in the dictionary, while the Clarifier finds the vocabulary word in the thesaurus. Students examine the dictionary word entry and work collaboratively to decide where to divide the word into syllables, where to place the accent mark, and what is the primary definition.
 5. The Reader reads the second set of directions and the Clarifier points out whether synonyms (same), antonyms (opposite), or inflections (different word endings) are required for the word. Students examine the thesaurus and decide which words or phrases to write in the spaces provided.
- Note that not every word is included in every thesaurus. The dictionary may also help students determine synonyms from the key words in the definitions or at the end of the word entry if listed as *Syn*. Often, students can brainstorm antonyms from the key words in the definitions. The dictionary may also provide inflections in boldface at the end of the word entry or inflections may be found as word entries listed above or below the vocabulary word.
6. The Reader reads the figures of speech title and the definition of the figure of speech in the parentheses. Next, the Reader reads the directions. The Clarifier re-reads the sentence using the figure of speech and asks the students to interpret what the figure of speech means and explain how it is used in the sentence. Students brainstorm the interpretation and explanation and write the answer in the space provided.

7. The Task Manager gets the answers from the teacher and students self-correct and revise their answers. Students cut the outside border of their Vocabulary Study Guides and fold them accordion style from four columns into one so the word is on front and definition is on back.

8. Students quietly study their Vocabulary Study Guides and then quiz each other.

Task Card Directions for Even-Numbered Vocabulary Worksheets

1. The Clarifier picks up the task card and will ask the teacher any questions about directions. The Task Manager writes down the ending time for this Literacy Center. The People Manager makes sure that everyone in the group has the correct vocabulary worksheet and reminds students to write their names on the page.

2. The Reader reads the Word Relationships title and directions, vocabulary words, and definitions out loud in a soft voice.

3. The Clarifier helps students brainstorm context clues sentences which show, not tell, the meanings of the vocabulary words and a transition word or phrase to connect the two sentences.

4. The Reader reads the Connotations title and directions, vocabulary words, and definitions. The Clarifier asks the students to brainstorm which vocabulary words belong in which blanks.

5. The Task Manager gets the answers from the teacher and students self-correct and revise their answers.

6. The Reader reads the Academic Language title and directions, the first vocabulary word, its part of speech, and definition. The Clarifier asks the students to brainstorm a word or phrase which is similar to and different than the vocabulary word. The Task Manager may assign a student to look up the vocabulary word in the thesaurus. Students write their answers in the first two boxes.

7. The Clarifier then helps students brainstorm an example, characteristic, or picture of the vocabulary word. For example, if the vocabulary word were *school*, examples could be elementary, middle school, and high schools. Characteristics of *school* could be teachers, students, and books. Pictures of *school* could be a sketch of a school building or classroom or a symbol such as an open book. Students write their response in the last box.

7. Follow the same steps (#s 6 and 7) for the second vocabulary word.

8. Students quietly study their Vocabulary Study Guides and then quiz each other in pairs or triads until the end of the Vocabulary Literacy Center.

Vocabulary Unit Tests

The biweekly Vocabulary Unit Tests are designed to assess student mastery of the vocabulary worksheets lessons.

Administrative Options

Each Vocabulary Unit Test covers four lessons. Given biweekly, the tests take about 10–15 minutes for most students to complete. Teachers may elect to give the unit tests every four weeks by combining two of each test to assess mastery of eight lessons.

Test Structure

Each Vocabulary Unit Test has fourteen matching questions: seven from each of the paired odd and even-numbered Vocabulary Worksheets. Students match the vocabulary words with their definitions. The sentence application section has four test problems: two figures of speech and two combinations of the Greek and Latin prefixes, roots, and suffixes.

Test Review Options

Teachers should print the Vocabulary Study Guides back-to-back on copy paper, not cardstock. Pass out the two-sided, fold-over Vocabulary Study Guides the day before the unit test and provide a few minutes for students to cut out the outside rectangle and properly fold the study guide accordion-style from the four columns into one. The vocabulary words are displayed on one side and the definitions on the back. By unfolding each column, students can quiz each other and study on their own.

Grading

Test answers are provided for both the matching sections and the figures of speech and Greek and Latin word parts found in the sentence application sections.

Teachers assign letter grades or assign points to fit in with their grading systems.

Numbering

Each Vocabulary Unit Test is numbered 17–34 because the Grammar and Mechanics Academic Literacy Center tests are numbered 1–16. Teachers using both literacy centers usually pair the biweekly grammar and mechanics test with the vocabulary test and so the 1–34 numbering is less confusing to students.

Spelling Sorts and Syllabication Introduction

This Spelling Sorts and Syllabication Literacy Center helps your students practice both grade-level conventional spelling patterns and syllabication skills. Each weekly spelling sort worksheet lists the focus conventional spelling rule and divides that rule into categories. Students sort the list of 20 words into these categories. Students practice the same syllabication rule for two weeks. Each weekly syllable worksheet lists the syllable rule with examples. Students divide a list of words into syllables according to that rule on the first week's worksheet. With the second syllable worksheet, students practice the syllabication rule with word jumbles, nonsense word syllable divisions, and a book search.

Materials Preparation

Print the spelling sorts and spelling sort answers back-to-back and the two syllable worksheets singled-sided for each student.

Pre-Teaching to the Whole Class

Teachers should read the directions and help students complete the first spelling sort and first two syllable worksheets.

Task Card Directions for Spelling Sorts

1. The Clarifier picks up the task card and will ask the teacher any questions about directions. The Task Manager writes down the ending time for this literacy center. The People Manager makes sure that everyone in the group has the spelling sort worksheet and reminds students to write their names on both pages.
2. The Reader reads the Spelling Rule out loud and the Spelling Rule Directions in a soft voice.
3. The Clarifier helps the group to brainstorm placement of the spelling words listed in the left column into the categories in the right column. Students should select the placements considering the best possible answers which match the words' sounds or spelling patterns.
4. Upon completion, the Task Manager gets the answers from the teacher and students self-correct and revise their answers.
5. The Clarifier tells the students to circle the bolded spelling patterns in the words they sorted correctly.
6. The Clarifier tells students to turn over their spelling sorts onto the backside. Students write the titles of the spelling sort categories with space underneath each to be able to write an additional spelling word example. The Clarifier helps the group brainstorm one additional word which matches each of the spelling sort categories. Students write these spelling word examples underneath the titles of the spelling sort categories.

Task Card Directions for Syllabication (Syllable Worksheets)

Note that students work on the Syllable Worksheets following the Spelling Sorts.

Odd Weeks

1. The Clarifier picks up the task card and will ask the teacher any questions about directions. The Task Manager writes down the ending time for this literacy center. The People Manager makes sure that everyone in the group has the first of the two syllable worksheets and reminds students to write their names on the page.
2. The Reader reads the title, syllable rule, and directions for the first syllable worksheet.
3. The Clarifier reads the word and the group echoes the word while clapping on the accented syllable and snapping on the unaccented syllable(s). After each word has been pronounced, clapped, and snapped, students work collaboratively to apply the rule and divide the words into syllables with / marks. Students also write the accent mark (') above the primary vowel accent.
4. Upon completion, the Task Manager gets the answers from the teacher and students self-correct and revise their answers. The Clarifier helps students understand why the syllable divisions and accent placements apply the syllable rule. If uncertain, the Clarifier asks the teacher for help.

Even Weeks

1. The Clarifier picks up the task card and will ask the teacher any questions about directions. The Task Manager writes down the ending time for this literacy center. The People Manager makes sure that everyone in the group has the second of the two syllable worksheets and reminds students to write their names on the page.
2. The Reader reads the title, syllable rule, and directions for the second syllable worksheet.
3. Students work collaboratively to unjumble the Word Jumbles. Students divide the unjumbled words into syllables with / marks and write the accent mark (') above the primary vowel accent. Note that the Word Jumbles feature words from the first syllable worksheet. Make sure students do not have access to the first worksheet for this activity.
3. Students divide the Nonsense Words into syllables with / marks, according to the syllable rule.
4. Students may use multiple books to find words which match the syllable rule. Students write the book titles, words, and page numbers where the word was found.
5. Upon completion, the Task Manager gets the answers from the teacher and students self-correct and revise their answers. The Clarifier helps students understand why the syllable divisions and accent placements apply the syllable rule. If uncertain, the Clarifier asks the teacher for help.

Notes: The author provides a comprehensive spelling program for grades 4, 5, 6, 7, and 8 with spelling tests, spelling sorts, a diagnostic spelling patterns assessment with corresponding remedial spelling worksheets (all with formative assessments), plus spelling review games and additional resources in [Differentiated Spelling Instruction](#).

The complete set of syllable worksheets, 56 vocabulary worksheets, vocabulary study cards, plus vocabulary review games and additional resources are found in the [Common Core Vocabulary Toolkit](#) grades 4, 5 6, 7, and 8 programs.

The author's [Grammar, Mechanics, Spelling, and Vocabulary](#) Grades 4, 5, 6, 7, and 8 BUNDLE includes comprehensive grade-level spelling components, including the 28 spelling sorts found in this *Spelling Academic Literacy Center*, plus weekly spelling tests, summative tests, and spelling review games. The BUNDLE also includes the full contents of the *Remedial Spelling Center* with the spelling diagnostic assessment and corresponding remedial spelling pattern worksheets, plus the *Common Core Vocabulary Toolkit*, the comprehensive *Teaching Grammar and Mechanics*, and the *Writing Openers Language Application*.

Spelling Worksheet #1

Vowels and Consonant Digraphs

Spelling Rule

The common vowels are *a, e, i, o,* and *u*. However, other letters, such as *y*, can serve as vowels as well. Each has a short and a long sound. The final *e* at the end of a syllable is silent.

Consonants and consonant digraphs (two letters with one sound such as “ch,” “ph,” “sh,” “th,” and “wh”) combine with vowels to form words.

Spelling Sort

Sort each spelling word into the group that best matches its spelling pattern.

Directions

This Study Skills Literacy Center helps your students learn and practice important cross-curricular study skills.

Materials Preparation

Print the self-assessment and lesson back-to-back for each student. Also print the reflection for each student.

Pre-Teaching to the Whole Class

Teachers should read the directions and help students complete the first study skill lesson

Task Card Directions for Study Skills

1. The Clarifier picks up the task card and will ask the teacher any questions about directions. The Task Manager writes down the ending time for this literacy center. The People Manager makes sure that everyone in the group has the study skills self-assessment, lesson, and reflection and reminds students to write their names on both pages.
2. Students silently read the self-assessment individually and rate themselves for each of the five statements.
3. Students total up the point values and circle the numerical range which matches their total under the Results column.
4. Students individually complete the Already Know and Want to Know sections.
5. Upon completion, the Clarifier asks students to share their responses in the Already Know and Want to Know sections.
6. The Reader reads the study skills lesson out loud in a quiet voice. Students say, “Stop,” when they wish to clarify or discuss any part of the lesson. The Clarifier should ask the teacher if students have questions about any part of the lesson.
7. Upon completion of the lesson, students complete the reflection individually.
8. When finished, the Clarifier asks students to share any of the ten answers which were unclear and left unwritten. Students self-correct and revise if necessary.

Note: The entire set of 56 study skills lessons is found in the author’s [Essential Study Skills](#) program.

How to Get Motivated Lesson

It's easy to get motivated to do something you enjoy. If your parents announce plans to go out to your favorite restaurant, it isn't hard to get excited about that doing that task. However, it's harder to get motivated to do something that you do *not* enjoy. If your parents announce plans to go to visit your least favorite relative, it is hard to get excited about doing that task. The trick is to learn how to self-motivate to accomplish the things that you do not enjoy. Learning and applying the steps of **The Motivation Cycle** will help you achieve your goals and feel good about your accomplishments. Fill in the blanks in the graphic as you read this lesson.

The Motivation Cycle

Step 1 Practice

The only way to get motivated to complete a task is by starting on that task through effective practice. Effective practice means to do things repeatedly *the right way*. To find out *what* the best practice is and *how* to do it, you need to consult an expert. Teachers, parents, or friends who are successful at the task can be excellent coaches. Famous basketball star, Michael Jordan, said that he started listening to his coaches in high school after failing to make the varsity team in his freshman year. *How* you practice is just as important as *how much* you practice.

Step 2 Achievement

As you continue practice, you will begin to see results. It may take a while to reach your goal. If you haven't done any homework all year in Math, it will take some time to improve your grade and catch up on missing skills. If you do not experience achievement after a reasonable amount of time, ask for help and adjust your practice. Michael Jordan made the varsity the next year.

Step 3 Satisfaction

Once you start experiencing achievement, you start feeling good about yourself and your accomplishments. In fact, this sense of personal satisfaction, that is connected to the goal, will increase your motivation to continue practicing. When people sense that there is a "pay-out," they will continue to work well. I'd say Michael Jordan must have felt plenty of satisfaction with his personal achievements, and I'd say that he probably did not mind the continued practice.

How to Prevent Procrastination Lesson

To avoid procrastination, learn how to develop a **Procrastination Prevention Plan**. Remember what adults always say? “Procrastination means to put off until tomorrow what you could be doing today.” Of course, they are right, but do you know the strategies to develop a plan that will help replace your bad habits with good ones? Here is a workable plan with the strategies to help you learn how to avoid procrastination.

But first, take a moment to figure out *why* you are procrastinating. People usually procrastinate for one of these reasons:

1. “I don’t want to do it.” The goal may be difficult and take significant effort or time. Or you might be just plain rebellious or lazy.
2. “It’s not worth it.” The pay-off for achieving the goal may not be considered worth the effort.
3. “It just doesn’t feel right.” You might think that it isn’t the right time or set of circumstances to begin. You might be waiting for the magic fairy to make you want to get started.
4. “I might fail or succeed.” You might be reminded of a past failure or even a past success which creates future expectations.
5. “It’s someone else’s responsibility or fault.” Playing the blame game can certainly prevent you from taking personal responsibility and action.

Which reasons listed above are the ones that influence you to avoid getting started on long-term school projects, extra-curricular (outside of school) commitments, or family responsibilities? List a few of your recent procrastinations and identify which of the reasons above were most responsible for your delays in getting started on the projects.

Procrastination _____ Reasons _____

Procrastination _____ Reasons _____

Procrastination _____ Reasons _____

To avoid procrastinating on long-term school projects, follow these proven steps:

The Procrastination Prevention Plan

1. Get started on your project as soon as it is assigned-that very day.
2. Start small. The longest journey begins with a single step, but you must take that step.
3. Keep at it! Do something on the project every day until it is finished. An object at rest, tends to stay at rest. However, an object in motion, tends to stay in motion.
4. If you miss a planned work day, double-up your work on the project on the very next day.
5. Divide up the project sub-tasks so that you have a day off, say once per week. Plan your timeline to finish the project early. Celebrate with rewards if the project is completed early. Get your parents on board with the rewards.

Already Know: What I already know about how to set goals is _____

Want to Know: What I want to know about how to set goals is _____

How to Set Goals Lesson

Learning how to set goals is important for schoolwork and for life. It's not just a matter of saying "I'm going to do it." It's also a matter of realistic expectations and effective planning. Following is a helpful list of how to set goals that you will be able to achieve.

1. First, set a **well-defined goal** that is realistic. your goal to one task that is achievable. Rome wasn't built in a day. It takes time to implement any plan and achieve success. For example, if you were earning a D grade after nine weeks in a math class, it would probably not be realistic to expect that grade to rise to an A within the next two weeks, no matter the extent of your efforts. A much more realistic goal would be to raise that grade to a C within that time period. It takes a while to dig yourself out of a ditch that you've taken nine weeks to dig.
2. Next, make your goal **specific and measurable**. Write down your goal. General goals rarely effect change. Instead of "My goal is to do better in math," try "My goal is to get a B or better on my math test in two weeks."
3. **Share your goal** with people that will pester you about your progress toward achieving that goal. Ask for their support. For example, tell your math teacher, your best friend, and your parents about the B you plan to achieve.
4. The next step is to **find the expert help** to develop a strategy for achieving your realistic and specific goal. The expert help might be your math teacher in the above example, or a tutor, or a parent, or a friend. Show your written goal to the expert and ask for specific help about what to do first, next, and thereafter. Arrange a time to check-in with the expert soon after you start your plan to evaluate your progress and to ensure that your plan makes sense.
5. After getting expert advice as to how to achieve your goal, **set rewards** before you begin to practice. Everyone works better toward a goal when rewards have been clearly defined. For example, set aside money to purchase a new video game once you have earned that B. Also establish mini-rewards to motivate practice in achieving that goal. For example, set aside a favorite snack to munch on after you have completed the daily practice toward your goal
6. **Be flexible** and willing to adjust your goal or how you practice achieving that goal. Talk to your expert again, if you do not see the progress that you had planned. Sometimes a small tweak in a plan can make all the difference. Thomas Edison failed a thousand times before he was successful the one time that he invented the incandescent light bulb.
7. **Evaluate** once your goal has been reached or not. Celebrate and take your reward, if you achieved your goal. If you did not achieve your goal, go back to your expert and brainstorm what went wrong. Set a new goal and begin immediately.

How to Develop a Positive Mental Attitude Lesson

Scientific research provides us some interesting generalizations about people who demonstrate positive mental attitudes. People with positive mental attitudes live healthier and longer lives. They have more friends and longer-lasting marriages. They are wealthier and have better paying and more prestigious jobs.

So, why wouldn't people do everything in their powers to develop positive mental attitudes? One reason may be that the rewards described in the above generalizations are more long-term and less immediate than the short-term and more immediate gratification gained by people with negative mental attitudes.

It is certainly true that whiners and drama queens or kings tend to get immediate attention. This instant gratification releases temporary pleasure-producing endorphins in the brain. Also, it is true to some degree that "misery loves company." Of course, those attracted to negative people tend to be negative people who feed on other's negativity.

So, what strategies can those who want to break out of negative mental attitudes use to develop positive mental attitudes?

Strategies to Develop Positive Mental Attitude

1. Make your positive mental attitude a daily *choice*. A positive mental attitude is not a feeling that you enjoy or come by naturally. Choose to see the glass as being "half-full," rather than "half-empty."
2. Develop an attitude of thankfulness. Others are much less fortunate than are you. Keep focused on everything for which you should be thankful.
3. Express appreciation and compliment often. Focus on giving credit and praise to those who are meaningful in your life. A note of appreciation to a teacher, a friend, or a parent will cheer up both the giver and receiver.
4. Don't let past failures prevent you from taking risks or trying something new. Develop the attitude that "What is past, is past. What is now, is possible with my best effort."
5. Focus on your strengths. You may not be "good" at a certain school subject, but you may be willing to work harder or ask for help.
6. Practice a positive mental attitude and it will soon become a habit, replacing the habit of a negative mental attitude. Keep at it, and the results will come in time.

How to Create a Home Study Environment Lesson

We are affected by our surroundings. Where we complete homework and study contributes to or detracts from the quality of our work at home. Follow these tips to learn how to create a productive home study environment.

1. Develop a study environment that works for you. Select a **quiet area** to dedicate to serious study. Learn to associate this place with uninterrupted study and success. Don't float around from place to place during study time.

Where and when is the best place for you to complete work at home? _____

2. **Avoid distractions** in your study environment. Keep your cell phone off and keep anyone or anything that will compete for your concentration out of that environment. Get help from others, such as parent, to support uninterrupted study time.

What and whom are your greatest distractions during study time at home? _____

What can you do about these distractions? _____

3. Unlearn poor study skills. For example, studying with the television or music as background may be something that you have always done; however, **sound competes with concentration**. Turn off these competing inputs during homework time.

What poor study skills do you have, if any? _____

4. Study on an uncluttered desk or table with good lighting and a straight-back chair. The study environment should be **business-like**, not overly comfortable.

What, if anything, could be improved? _____

5. Have study materials on or **next to your study area** so that you don't have to interrupt study time to locate these items. Keep sharpened pencils, pens, paper, and books convenient to your study area.

Which study materials and supplies do you need to add to your study area?

How to Get Organized for Homework Lesson

Getting organized for homework doesn't start at home. It starts at school and if you think about it: YOU HAVE HOMEWORK EVERY DAY. Homework usually consists of the following:

- Finish up work begun in class
- Independent practice
- A long-term project
- Test study
- Independent reading
- Extra credit (Ask for it!)

Check out these tips to organize and plan your homework time:

1. Organize your homework throughout the day. When your teacher announces homework for any subject, write as many details regarding the work in your student planner. Write an estimate of how much time each task will take and what books, worksheets, or supplies from school you will need to bring home. Your student planner is your lifeline. Use it to write down everything, including papers which need to be read and/or signed by parents. Don't rely on your memory.
2. Make sure that you understand any oral or written directions. Ask the teacher if you are not perfectly clear about the directions and if you need more help understanding what you need to do on your own. Don't hope that you will figure it out later or rely upon your parents for help.
3. Use a three-ring binder and keep a three-hole-punch in your backpack to secure any worksheets and resources that your teacher provides. Ask your teacher or teachers how to best organize everything you will need to keep for each subject. Use labeled subject dividers for your classes and always place papers in their proper places, no matter how much time it takes. A worksheet stuffed in the binder folder or in a pocket of your backpack will often get lost. If possible, place every paper worksheet or resource that you will need for homework in one place in your binder. Include any notices, flyers, or letters sent home for your parents in this section.
4. Never throw anything away. If the teacher says to do so, take the work home and keep it in a drawer, storage box, or the closet. You may find you will need it after all.
5. Neatly organized your backpack. Good backpacks (I recommend rolling backpacks to take the weight off your back) will have multiple compartments. Use these compartments to organize what you need for school. A separate pen and pencil box with erasers, extra lead, a ruler, small three-hole punch, small stapler, and glue stick should go in a separate compartment. Keep books in the large compartment, inside plastic bags during the rainy season. Keep your student planner and binder or binders in another compartment. Invite your parents to inspect your backpack and do a Sunday night binder and backpack dump, just in case papers are not in their proper places.
6. Homework is also study. A little study every night for upcoming tests is smarter than a lot of cramming the night before a test. The same is true for long-term projects.
7. As soon as you get home, open your student planner to begin organizing your homework plan.

How to Complete a Daily Review Lesson

Review and Respond to Notes and Class Work

Every day after school at the beginning of your homework time, complete a ten-minute review of any notes, worksheets, and assignments that you worked on in class that day. This review interrupts the “forgetting cycle” and will help you prepare in advance for tests. Students remember up to 70% of new information if that information is practiced and placed into the long-term memory within the first 24 hours after first learning that information. The level of retention drops to only 10% after one week. So, plan your study schedule to have a study review time soon after school every day. A little bit of test preparation and study with a **Daily Review** will actually save you time studying the night before the test.

Purchase a spiral-bound notebook for each of your school subjects or classes. Label each notebook, according to the subject. Write the date of your **Daily Review** at the top of page and list the key areas of focus for that subject or class on that day. Write possible test questions and memory tricks to remember key ideas and details for the most important content learned that day on small sticky notes and arrange them on the **Daily Review** page. A few nights before an upcoming test, you can transfer the sticky notes to a study sheet and use them to create a practice test. Also, don't forget sticky notes that you used to take marginal annotations on worksheets, articles, and from your textbook.

A Few Tips for Writing Memorable Sticky Notes

1. People remember information best when that information is organized in a structured manner.

Tip: Organize your sticky notes into distinctly memorable patterns. Try general to specific, alphabetical, and chronological patterns. Color code categories with different color stickies. For example, if you are studying the explorers you could use blue for people, yellow for their countries, green for their areas of exploration, and pink for their accomplishments.

2. People remember information that is connected to visual imagery.

Tip: Draw out quick graphic or picture representations of key ideas on your stickies.

3. People remember events and information that are made exciting, interesting, or even embarrassing.

Tip: Personalize what you are trying to remember to keep things more memorable on your stickies. Relate the information that you want to remember to events and people in your own life.

How to Manage Time for Homework Lesson

1. Your personal schedule is not the only schedule in your family. Your parents and siblings have their own schedules, too. Their schedules affect your homework schedule. To set aside the amount of time you need to complete homework and study, you all need to communicate those schedules with each other. **A few tips for family schedules work well:** Some families post an erasable white board in a common meeting area, such as the kitchen or a family room with upcoming appointments, chores, meetings, project due-dates, etc. Others post this information on a family calendar. If you have a cell phone, tablet, or desktop, you can sync family calendar events. Develop a plan with your parents that works for your homework and family's schedule.
2. **Be flexible.** Despite your best efforts with family communication, things do change. You may have to babysit or visit grandma unexpectedly. Have a workable back-up plan to handle life's interruptions.
3. If possible, start your homework **as soon as you get home.** Open your student planner as soon as you get in the door. Grab a quick snack and do your chores, but get started before you go out with friends, check your social media, play, listen to music, work on a hobby, watch television, play video games, get on the phone, etc. Postpone these fun activities until the work is done. You will enjoy them more, knowing that you have completed your homework.
4. Use a **monthly calendar** to plan out long-term study projects and to write down upcoming tests. Coordinate this calendar with a weekly student agenda or planner and make sure to share these dates and estimates of study time with your family. Remember to plan in study time, and not just reading and written homework time.
5. Develop a **study order** before you begin a study session. Study your hardest subject first when you are fresh. Concentrate your best time on this subject. Do simple or easy study or work at the end of your study time, when less concentration is needed.
6. Plan **time estimates** and write these down before you begin to study. Build in a realistic cushion, allotting a bit more time than is expected for each study task. Things do not always go as planned.
7. Plan when to **take study breaks** before you begin. Study breaks should be short (5 minutes), regular (every 30 minutes), and away from your study area. Do something different than your study activity. Make sure to stretch during study breaks. Get up and move around.
8. Establish simple **rewards** in advance to enjoy during a study break. For example, if a snack is calling your name, delay gratification until a planned study break.
9. Begin your homework session with your ten-minute **Daily Review.**

Literacy Centers

LEADERSHIP ROLES

Reader

Read the lesson or activity out loud in a quiet voice. Pause to allow the group to think and respond. Re-read sections if necessary.

Clarifier

Refer to the task card to begin the lesson or activity and help the group perform its tasks. Ask the teacher if help is needed on the directions.

Task Manager

Write down the beginning and ending times. Manage how much time should be spent on each part of the lesson or activity. Make sure that every part is completed and done well.

People Manager

Keep all group members focused on the lesson or activity and talking in quiet voices. Make sure every student contributes and performs their leadership roles. Ask the teacher for help if the group needs it.

Reading Literacy Center Task Card: Reading Fluency and Comprehension

1. The Clarifier picks up the task card, and the Task Manager passes out the *cold* and *hot* color pencils and erasers. The Task Manager notes the ending time for this literacy center. The People Manager makes sure that everyone in the group has the reading fluency article and reminds students to write their names on the page.
2. The Clarifier points to the **boldfaced** pronunciation words in the upper right corner of the article and says, “Ready, begin.” The group reads the words together out loud. The Clarifier asks the teacher if unsure of the pronunciation.
3. The Task Manager sets the timer for two minutes. The Reader reads the article title and then says, “Ready, begin.” The Task Manager starts the timer and students read the article in quiet voices (slightly louder than a whisper) at their own individual paces until the timer rings. When the timer rings, the students place a finger on their ending word.
4. Students look to the left column of their finger for the word count. Students add on the number of words on the line up to their finger to determine their cold or hot timings. The People Manager tells the students to record their cold timings quickly and neatly on the Fluency Timings Chart.
5. **Modeled Reading Option:** Students practice reading with model reader at the fluency level assigned by their teacher in a quiet voice (not a whisper). Students continue to read and re-read the article until the Task Manager says, “Stop” (after 10 minutes).
6. The Reader reads the article title and then the first SCRIP question. Next, the Reader begins reading the article in a quiet voice until someone in the group says, “Stop,” because the first SCRIP question has been answered or the related information has been read.
7. Students discuss how to word the answer and write the answer in the spaces provided below the SCRIP question. The Clarifier turns over the task card and reads the suggested answer. Students revise their answers if necessary.
8. When the Reader finishes a sentence in which a **boldfaced** vocabulary word appears, the Reader stops and students discuss the meaning of the word from surrounding **SALE** (Synonym, Antonym, Logic, Example) context clues. Students discuss how to word each definition and write the vocabulary words and their definitions in the article margins.
9. Continue these steps until the article is read, the SCRIP questions are answered, and the vocabulary words are defined. The Task Manager gets the answers from the teacher and students self-correct and revise their answers.
10. Follow the same directions (#3) for the hot timing and use the hot pencil to record your score on top of cold timing. If you read fewer words on this hot timing than you did on your cold timing, simply draw a line across the bar at the correct spot.

Writing Literacy Center Task Card: Sentence Revisions and Literary Response

1. The Clarifier picks up the task card and will ask the teacher any questions about directions. The Task Manager writes down the ending time for this literacy center. The People Manager makes sure that everyone in the group has the sentence revision activity and reminds students to write their names on the page.
2. The Reader reads the sentence revisions Lesson Focus out loud in a soft voice, and the Task Manager helps the group summarize the Key Idea(s) of the lesson on the lines provided in the second column.
3. After each student has completed the summaries, the Reader reads the Example(s), and the Clarifier asks students to explain how each example relates to the Lesson Focus.
4. The Reader reads the sentence revision task, and students complete this task individually.
5. Upon completion, the Clarifier asks students to share their sentence revisions. The Task Manager gets the answers from the teacher and students self-correct and revise their answers.
6. Next, students turn their papers over to the back and the Reader reads the Literary Quotation and the Definition/Explanation/Reflection.
7. The Task Manager reads each of the Observation, Interpretation, and Application questions. *Observation* is What do you see? *Interpretation* is What does it mean? *Application* is How can this be used? The Task Manager pauses after each question and the Clarifier asks for responses. The People Manager encourages all students to respond.
8. After completing discussion, students complete the Revision and Draw tasks individually. If time remains, the Clarifier asks students to share their responses.

Language Conventions Literacy Center Task Card: Grammar, Usage, and Mechanics

1. The Clarifier picks up the task card and will ask the teacher any questions about directions. The Task Manager writes down the ending time for this Literacy Center. The People Manager makes sure that everyone in the group has the GUM worksheet and reminds students to write their names on the page.
2. The Reader reads the Mechanics Notes in the right column out loud in a soft voice and stops at the Example(s). Students look at the back of their worksheet and copy down the example(s) **for that section only**. The Clarifier asks students how the examples relate to the mechanics rule. Continue to follow these steps for the rest of the Mechanics Notes.
3. Next, students complete the Practice sentences individually in the left column for the mechanics section by crossing out and revising errors or underlining words according to the worksheet directions. Upon completion, students look at the back of their worksheet to self-correct and revise their answers if necessary.
4. Continue to follow these steps (#s 2 and 3) for next section of the GUM worksheet.
5. Upon completion, the Task Manager reads the Writing Application task out loud. Students complete this sentence or sentences individually.
6. When finished, the Clarifier asks the group to share the Writing Application sentences. Students *borrow* from each other to revise their sentences if necessary.

Language Conventions Literacy Center Task Card: Grammar, Usage, and Mechanics

1. The Clarifier picks up the task card and will ask the teacher any questions about directions. The Task Manager writes down the ending time for this Literacy Center. The People Manager makes sure that everyone in the group has the GUM worksheet and reminds students to write their names on the page.

5. Upon completion, the Task Manager reads the Writing Application task out loud. Students complete this sentence or sentences individually.
6. When finished, the Clarifier asks the group to share the Writing Application sentences. Students *borrow* from each other to revise their sentences if necessary.

Vocabulary Literacy Center Task Card: Odd-Numbered Vocabulary Worksheets

1. The Clarifier picks up the task card and will ask the teacher any questions about directions. The Task Manager writes down the ending time for this Literacy Center. The People Manager makes sure that everyone in the group has the correct vocabulary worksheet and reminds students to write their names on the page.

2. The Reader reads the Multiple Meaning Words title and directions, vocabulary words, and definitions out loud in a soft voice. The Clarifier helps students brainstorm which number of the definition best matches the use of each vocabulary word.

3. The Reader reads the Greek and Latin Word Parts title and directions, the word parts, and their meanings. The Clarifier helps students brainstorm example words which use each of the Greek and Latin word parts. Next, students use the word part meanings (reverse the order if helpful) or their own words to guess the meaning of the vocabulary word. Students may use the dictionary if they cannot agree on a suitable definition guess.

4. The Reader reads the Language Resources: Dictionary and Thesaurus title, the first set of directions, and the vocabulary word. The Task Manager finds the vocabulary word in the dictionary, while the Clarifier finds the vocabulary word in the thesaurus. Students examine the dictionary word entry and work collaboratively to decide where to divide the word into syllables, where to place the accent mark, and what is the primary definition.

5. The Reader reads the second set of directions and the Clarifier points out whether synonyms (same), antonyms (opposite), or inflections (different word endings) are required for the word. Students examine the thesaurus and decide which words or phrases to write in the spaces provided.

Note that not every word is included in every thesaurus. The dictionary may also help students determine synonyms from the key words in the definitions or at the end of the word entry if listed as *Syn*. Often, students can brainstorm antonyms from the key words in the definitions. The dictionary may also provide inflections in boldface at the end of the word entry or inflections may be found as word entries listed above or below the vocabulary word.

6. The Reader reads the figures of speech title and the definition of the figure of speech in the parentheses. Next, the Reader reads the directions. The Clarifier re-reads the sentence using the figure of speech and asks the students to interpret what the figure of speech means and explain how it is used in the sentence. Students brainstorm the interpretation and explanation and write the answer in the space provided.

7. The Task Manager gets the answers from the teacher and students self-correct and revise their answers. Students cut the outside border of their Vocabulary Study Cards and fold them accordion style from four columns into one so the word is on front and definition is on back.

8. Students quietly study their Vocabulary Study Cards and then quiz each other.

The People Manager makes sure that everyone in the group has the correct vocabulary worksheet and reminds students to write their names on the page.
2. The Reader reads the Word Relationships title and directions, vocabulary words, and definitions out loud in a soft voice.
3. The Clarifier helps students brainstorm context clues sentences which show, not tell, the meanings of the vocabulary words and a transition word or phrase to connect the two sentences.
4. The Reader reads the Connotations title and directions, vocabulary words, and definitions. The Clarifier asks the students to brainstorm which vocabulary words belong in which blanks.
5. The Task Manager gets the answers from the teacher and students self-correct and revise their answers.
6. The Reader reads the Academic Language title and directions, the first vocabulary word, its part of speech, and definition. The Clarifier asks the students to brainstorm a word or phrase which is similar to and different than the vocabulary word. The Task Manager may assign a student to look up the vocabulary word in the thesaurus. Students write their answers in the first two boxes.
7. The Clarifier then helps students brainstorm an example, characteristic, or picture of the vocabulary word. For example, if the vocabulary word were *school*, examples could be elementary, middle school, and high schools. Characteristics of *school* could be teachers, students, and books. Pictures of *school* could be a sketch of a school building or classroom or a symbol such as an open book. Students write their response in the last box.
7. Follow the same steps (#s 6 and 7) for the second vocabulary word.
8. Students quietly study their Vocabulary Study Cards and then quiz each other in pairs or triads until the end of the Vocabulary Literacy Center.

Spelling and Syllabication Literacy Center Task Card: Spelling Sorts

1. The Clarifier picks up the task card and will ask the teacher any questions about directions. The Task Manager writes down the ending time for this literacy center. The People Manager makes sure that everyone in the group has the spelling sort worksheet and reminds students to write their names on both pages.
2. The Reader reads the Spelling Rule out loud and the Spelling Rule Directions in a soft voice.
3. The Clarifier helps the group to brainstorm placement of the spelling words listed in the left column into the categories in the right column. Students should select the placements considering the best possible answers which match the words' sounds or spelling patterns.
4. Upon completion, the Reader turns the worksheet over to the back and reads the spelling sort category and its spelling sort words.
5. The Task Manager tells students to turn their worksheets over to the back and to circle the bolded spelling patterns in the words they sorted correctly.
6. Students self-edit and revise, according to the answers. The Clarifier helps students understand why the answers best match each spelling sort category.
7. The Clarifier helps the group brainstorm six other words which match the spelling pattern. Students write these in the spaces provided and discuss where each word would fit into the spelling sort categories.

4. Upon completion, the Reader turns the worksheet over to the back and reads the spelling sort category and its spelling sort words.
5. The Task Manager tells students to turn their worksheets over to the back and to circle the bolded spelling patterns in the words they sorted correctly.
6. Students self-edit and revise, according to the answers. The Clarifier helps students understand why the answers best match each spelling sort category.
7. The Clarifier helps the group brainstorm six other words which match the spelling pattern. Students write these in the spaces provided and discuss where each word would fit into the spelling sort categories.

Spelling and Syllabication Literacy Center Task Card: Syllable Worksheets

Odd Weeks

1. The Clarifier picks up the task card and will ask the teacher any questions about directions. The Task Manager writes down the ending time for this literacy center. The People Manager makes sure that everyone in the group has the first of the two syllable worksheets and reminds students to write their names on the page.
2. The Reader reads the title, syllable rule, and directions for the first syllable worksheet.
3. The Clarifier reads the word and the group echoes the word while clapping on the accented syllable and snapping on the unaccented syllable(s). After each word has been pronounced, clapped, and snapped, students work collaboratively to apply the rule and divide the words into syllables with / marks. Students also write the accent mark (/) above the primary vowel accent.
4. Upon completion, the Task Manager gets the answers from the teacher and students self-correct and revise their answers. The Clarifier helps students understand why the syllable divisions and accent placements apply the syllable rule. If uncertain, the Clarifier asks the teacher for help.

Even Weeks

1. The Clarifier picks up the task card and will ask the teacher any questions about directions. The Task Manager writes down the ending time for this literacy center. The People Manager makes sure that everyone in the group has the second of the two syllable worksheets and reminds students to write their names on the page.
2. The Reader reads the title, syllable rule, and directions for the second syllable worksheet.
3. Students work collaboratively to unjumble the Word Jumbles. Students divide the unjumbled words into syllables with / marks and write the accent mark (/) above the primary vowel accent. Note that the Word Jumbles feature words from the first syllable worksheet. Make sure students do not have access to the first worksheet for this activity.
3. Students divide the Nonsense Words into syllables with / marks, according to the syllable rule.
4. Students may use multiple books to find words which match the syllable rule. Students write the book titles, words, and page numbers where the word was found.
5. Upon completion, the Task Manager gets the answers from the teacher and students self-correct and revise their answers. The Clarifier helps students understand why the syllable divisions and accent placements apply the syllable rule. If uncertain, the Clarifier asks the teacher for help.

Study Skills Literacy Center Task Card: Self-Assessment, Study Skills Lesson, and Reflection

1. The Clarifier picks up the task card and will ask the teacher any questions about directions. The Task Manager writes down the ending time for this literacy center. The People Manager makes sure that everyone in the group has the study skills self-assessment, lesson, and reflection and reminds students to write their names on both pages.
2. Students silently read the self-assessment individually and rate themselves for each of the five statements.
3. Students total up the point values and circle the numerical range which matches their total under the Results column.
4. Students individually complete the Already Know and Want to Know sections.
5. Upon completion, the Clarifier asks students to share their responses in the Already Know and Want to Know sections.
6. The Reader reads the study skills lesson out loud in a quiet voice. Students say, "Stop," when they wish to clarify or discuss any part of the lesson. The Clarifier should ask the teacher if students have questions about any part of the lesson.
7. Upon completion of the lesson, students complete the reflection individually.
8. When finished, the Clarifier asks students to share any of the ten answers which were unclear and left unwritten. Students self-correct and revise if necessary.
