Diagnostic Assessments Overview

The Science of Reading Intervention Program includes diagnostic assessments for both program placement and individualized instruction.

Designed for grades 4–adult students, each comprehensive whole-class assessment provides teachable data regarding which literacy components have and have not yet been mastered. Mastery matrices (formatted in print and Google sheets) help teachers monitor progress.

The assessments pair with short lessons to target each test item. For example, if a student misses #21 on the Spelling Assessment, the corresponding Spelling Pattern Worksheet #21 will help the student practice that spelling deficit and determine mastery with a quick formative assessment.

Following are 13 diagnostic assessments (formatted in print, audio, and Google forms).

Diagnostic Assessments (Administration Time)

Vowel Sound Phonics Assessment (10:42 audio file)
Consonant Sounds Phonics Assessments (12:07 audio file)
Syllable Awareness Assessment (5:48 audio file)
Syllable Rhyming Assessment (5:38 audio file)
Phonemic Isolation Assessment (5:54 audio file)
Phonemic Blending Assessment (5:53 audio file)
Phonemic Segmenting Assessment (5:21 audio file)
Alphabetic Awareness Assessments (10 minutes)
“Pets” Fluency Assessment (2 minutes per student)

Heart Words Assessment (5:48 audio file)

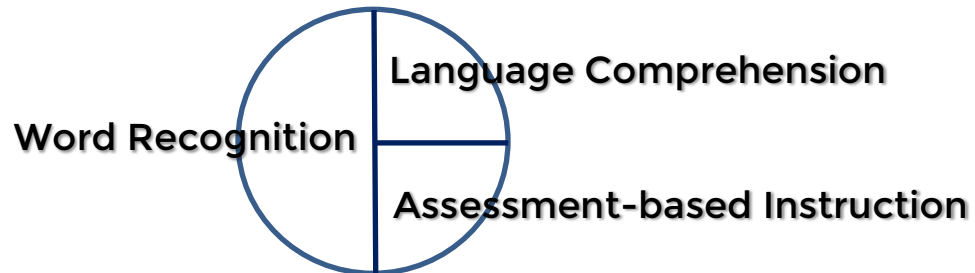

Spelling Assessment (22.38 audio file)
Grammar and Usage Assessment (15–20 minutes)
Mechanics Assessment (10–15 minutes)
Grade 4 Academic Language Assessment
Grade 5 Academic Language Assessment
Grade 6 Academic Language Assessment
Grade 7 Academic Language Assessment
Grade 8 Academic Language Assessment

The Comprehensive Reading Intervention Program

The Science of Reading Intervention Program BUNDLE provides a complete **55-minutes-per-day, year-long program** for grades 4–adult students.

First Half of the Year Program (55 minutes-per-day, 18 weeks)

[The Science of Reading Intervention Program: Word Recognition](#) includes explicit, scripted instruction and practice with the **5 Daily Google Slide Activities** every reading intervention student needs: 1. Phonemic Awareness and Morphology 2. Blending, Segmenting, and Spelling 3. Sounds and Spellings (including handwriting) 4. **Heart** Words Practice 5. Sam and Friends Phonics Books (decodables). Plus, digital and printable sound wall cards and speech articulation songs. Print versions are available for all activities.

Second Half of the Year Programs (55 minutes-per-day, 18 weeks)

[The Science of Reading Intervention Program: Language Comprehension](#) resources are designed for students who have completed the word recognition program or have demonstrated basic mastery of the alphabetic code and can read with some degree of fluency. The program features the **5 Weekly Language Comprehension Activities**: 1. Background Knowledge Mentor Texts 2. Academic Language, Greek and Latin Morphology, Figures of Speech, Connotations, Multiple Meaning Words 3. Syntax in Reading 4. Reading Comprehension Strategies 5. Literacy Knowledge (Narrative and Expository) for 30 minutes-per-day instruction and practice.

To supplement the language comprehension program (and create a 55 minutes-per-day reading intervention class), [The Science of Reading Intervention Program: Assessment-based Instruction](#) provides diagnostically-based instructional resources to individualize instruction in 25 minutes-per-day. The program includes **18 comprehensive assessments and matching instructional resources** to fill in the yet-to-be-mastered gaps in phonemic awareness, alphabetic awareness, phonics, fluency (with YouTube modeled readings), **Heart** Words and Phonics Games, spelling patterns, grammar, usage, and mechanics, syllabication and morphology, executive function skills. Even though students have completed the word recognition program, some students and new transfer students will need **second-chance instruction** with more intense tutoring and practice in easily-managed small groups and independent practice.

Alphabetic Awareness Assessments

Teacher Notes

The purpose of this whole class assessment is to determine your students' knowledge of the alphabetic letters. The first section of the test requires students to sequence lower case letters. The second section requires students to match upper case letters to their lower case counterparts, including commonly-confused font variations.

Preparation

Print on cardstock and cut the alphabet cards found in the Addendum for each of the students taking the assessment. Separate the lower case and upper case cards, and shuffle each set.

Administration

Alphabet Letter Sequence

1. Arrange desks or tables so that students will not be able to see each other's cards.
2. Pass out sets of the shuffled **lower case cards** to each student and say, "Place the lower case letters of the alphabet in correct order on your desk (table)."
3. Monitor student progress, paying attention to how students arrange the cards. Students who arrange the cards differently than the left-right, top-down sequence may lack print awareness. Provide no more than five minutes for this assessment. If students have not yet finished, they require alphabetic awareness activities. **Tell students to leave the cards in order on their desks.**

Alphabet Letter Match

4. Pass out sets of the shuffled **upper case cards** to each student and say, "Place the upper case (capital) letters below their matching lower case letters on your desk (table)." Demonstrate how to match them.
5. Provide no more than five minutes for this assessment. If students have not yet finished, they require alphabetic awareness activities. **Tell students to leave the cards in order on their desks.**

Correction and Recording the Data

Record letter sequence and letter matching errors with slashes (/), according to the line divisions on the matrix.
